

RESERVOIR AND TO WATER APPROPRIATED STATE OF OREGON

State of Oregon
County of Washington
(GIVING ADDRESS)

I, W. J. ..., do hereby make application for a permit to construct the
reservoir described herein and to store the appropriated waters of the State of Oregon, subject to
existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is W. J. ...

2. The name of the stream from which the reservoir is to be filled and the appropriation made is
Unnamed Stream

tributary of Washington River

3. The amount of water to be stored is 1000 acre feet.

4. The use to be made of the impounded water is irrigation
(irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 12

Tp. 15 R. 15 W. M. in the county of Washington

(a) State whether situated in channel of running stream and give character of material at outlet

In channel of stream, with a log dam with water
spilling over the top

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give

name and dimensions

6. The dam will be located in N. 1/4 of Sec. 12

Tp. 15 R. 3 W. W. M. The maximum height will be 5 feet above stream bed or around

surface on center line of dam. The length on top will be 40 feet; length on

bottom 40 feet; width on top 40 feet; slope of front

of water side 1:1; slope on back 1:1; height of dam above water line

when full 5 feet. (See Reverse here)

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge together with instructions by addressing the State Engineer, Salem, Oregon.

... to be built, and method of protection from
...
...
... will restore some
... it beaver's do not do so
...
...
... (State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: Through the dam, which will be welded
(State whether through or around the dam)
to see that it is not too high

10. The area submerged by the proposed reservoir, when full, will be 10 acres, with a maximum depth of water of 5 feet; and approximate mean depth of water 1.5 feet.

11. The estimated cost of the proposed work is \$
12. Construction work will begin on or before
13. Construction work will be completed on or before
