~~To Construct a Reservoir and to
Appropriate Water~~
~~in the State of Oregon~~

Amos L. Miller

Ronie C. Miller, Jr.

Cotton, Oregon

State of Oregon

do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Amos L. Miller

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Wallowa River, tributary to the Columbia River, located by A. Miller
tributary of Wallowa River

3. The amount of water to be stored is 1,000 acre feet acre feet.

4. The use to be made of the impounded water is Irrigation, power, domestic supply, etc.

5. The location of the proposed reservoir will be in Sec. 4 - N.E. 1/4 (Give sections or townships to be submerged)

Tp. 5, S. R. 35, W. M., in the county of Wallowa

(a) State whether situated in channel of running stream and give character of material at outlet

Not in channel, rocky bed, gravelly bottom, rocky bank

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in NE 1/4 (smallest legal subdivision), Sec. 4 - N.E. 1/4

Tp. 5, R. 35, W. M. The maximum height will be 7 feet above stream bed or ground surface on center line of dam. The length on top will be 140 feet; length on

bottom 50 feet; width on top 8 feet; slope of front 3 - 1 (feet horizontal to 1 vertical); height of dam above water line 5 feet.

or water side 3 - 1; slope on back 2 - 1 (feet horizontal to 1 vertical); height of dam above water line 5 feet.

when full one feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

...and method of protection from
floods, and method of protection from

8. The location of weirs with dimensions are as follows: ~~the 17' wide dam~~
~~is 10' high.~~ One ft. up, 8' wide at top, 16' at
base 6" thick extending above backwater.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: ~~The outlet dam or tile drain 12" - 35' long~~
~~(State whether through or around the proposed dam)~~
~~with 2" pipe.~~

10. The area submerged by the proposed reservoir, when full, will be 1.2 acres,
with a maximum depth of water of 150' feet; and approximate mean depth of water
100' feet.

11. The estimated cost of the proposed work is \$600.

12. Construction work will begin on or before April 1, 1952.

13. Construction work will be completed on or before June 1, 1952.

John Smith
(Name of applicant)

STATE OF OREGON,

County of Marion,

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction or completion as follows: Corrections.

In order to retain its priority, this application must be returned to the State Engineer, with corrections, on or before May 1st, 1952.

WITNESS my hand this 1st day of April, 1952.
