Application for a Permit to Construct a Reservoir and to Store the Unappropriated Waters of the State of Oregon

I, Frank W. Johnson
of Washington State,
do hereby make application for a permit to construct the

following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is no name

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Washburn Creek

tributary of Washburn Dairy Creek

3. The amount of water to be stored is 8 acre feet

4. The use to be made of the impounded water is irrigation

5. The location of the proposed reservoir will be in Sec. SW 16 of Section 16

Tp. 1N R. 3W W. M. in the county of Washington

(a) State whether situated in channel of running stream and give character of material at outlet
situated in the channel of a small creek which dries up in summer. Character of material at outlet - clay

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in SW 16 Sec. 16

Tp. 1N R. 3W W. M. The maximum height will be 6 feet above stream bed or ground

surface on center line of dam. The length on top will be 210 feet; length on bottom 175 feet; width on top 16 feet; slope of front

of water side 3:1; slope on back 2:1; height of dam above water line

when full 3 feet.

A different form of application should be used for the appropriation of stored water to beneficial use without charge together with instructions by addressing the State Engineer, Salem, Oregon

7. The construction of dam, the material of which it is to be built, and method of protection from
wash fill construction. If necessary, rock rip
rap shall be placed on dam.

8. The location of spillway with dimensions are as follows: concrete spillway,
6' wide and 2' deep over dam

9. The location of outlet from the proposed reservoir, with character of construction and dimensions,
are as follows: 30" concrete pipe running through dam equipped with
sliding headgate

10. The area submerged by the proposed reservoir, when full, will be 1.5 acres.
with a maximum depth of water of 17 1/2 feet; and approximate mean depth of water
12 1/2 feet.

11. The estimated cost of the proposed work is \$ 300

12. Construction work will begin on or before already started

13. Construction work will be completed on or before Jan. 1, 1953

Frank F. ...
(Name of applicant)

STATE OF OREGON,
STATE OF OREGON,
County of Marion,

This is to certify that I have examined the foregoing application, together with the accompanying
maps and data, and return the same for correction or completion as follows:

In order to retain its priority, this application must be returned to the State Engineer, with cor-
rections, on or before _____, 19____.

WITNESS my hand this _____ day of _____, 19____.

STATE ENGINEER

[Lined area for application details, mostly illegible due to heavy noise and dark artifacts]

STATE OF OREGON
County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same subject to the following limitations and conditions: The right herein granted is limited to the construction of a reservoir and the storage of water from an unnamed creek to be appropriated under Application No. 25003, Permit No. 21235 for irrigation.

The right hereunder shall be limited to the storage of 9.0 acre feet.

The priority date of this permit is June 6, 1952

Actual construction work shall begin on or before August 29, 1953

and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1954

WITNESS my hand this 20th day of August 1952

[Handwritten signature and official stamp of the State Engineer]
