Permit to appropriate waters of the State of Oregon

WILLIAM J. ...
(Name of Applicant)

...
(Mailing Address)

State of Oregon do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is LESLIE JAMES RESERVOIR

2. The name of the stream from which the reservoir is to be filled and the appropriation made is unnamed tributary of Snider Creek

tributary of Regua River

3. The amount of water to be stored is fifty eight (58) acre feet.

4. The use to be made of the impounded water is irrigation (Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 33

Tp. 35S R. 2W W. M, in the county of JACKSON

(a) State whether situated in channel of running stream and give character of material at outlet intermittent stream running from October to April
soil of high clay content.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

b. The dam will be located in 1/4 and 1/4 Sec. 33
(Smallest legal subdivision)

Tp. 35S R. 2W W. M. The maximum height will be 21.4 feet above stream bed or ground surface on center line of dam. The length on top will be 115 feet; length on bottom 20 feet; width on top 12 feet; slope of front or water side 3:1; slope on back 2:1; height of dam above water line when full 3 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

... of which it is to be built and method of protection from

8. The location of structure with dimensions are as follows: around dam
(State whether over or around the dam)

See attached plans

9. The location of outlet from the proposed reservoir with character of construction and dimensions, are as follows: NO OUTLET needed. Water to be pumped out.
(State whether through or around the proposed dam)

10. The area submerged by the proposed reservoir, when full, will be 8 acres, with a maximum depth of water of 10.4 feet and approximate mean depth of water 7.25 feet.

11. The estimated cost of the proposed work is \$ 3,000.

12. Construction work will begin on or before Oct. 15, 1952

13. Construction work will be completed on or before Oct 15, 1953

Paul C. Johnson
State Engineer
(Name of applicant)

STATE OF OREGON,
County of Marion,

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction or completion as follows:

In order to retain its priority, this application must be returned to the State Engineer, with corrections, on or before 10 day of 10

WITNESS my hand this 3 day of 10

STATE ENGINEER

STATE OF OREGON
County of Marion

This is to certify that I have examined the foregoing application and do hereby grant the same subject to the following limitations and conditions: The right hereunder granted is limited to the construction of the Lester James Reservoir and the storage of water from an unnamed stream to be appropriated under Application No. 27534, Permit No. 21526 for irrigation. The right hereunder shall be limited to the storage of 50 acre feet. The priority date of this permit is June 26, 1954. Actual construction work shall begin on or before November 20, 1955 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1961.

WITNESS my hand this 28th day of November, 1955

[Handwritten Signature]
STATE ENGINEER

Application No. 62-2-2833
Reservoir Permit No. 11-1-1223

PERMIT

To construct a reservoir and structure for benzene
officially appropriated waters of the
