Water Resources Division
Application for a Permit to Construct a Reservoir and to
Appropriate the Water to be Unappropriated
Waters of the State of Oregon

APPLICANT
MR. NAME

(Name of Applicant)

MR. NAME

(Address)

(Address)

State of **OREGON**

do hereby make application for a permit to construct the

following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is **NO NAME**

2. The name of the stream from which the reservoir is to be filled and the appropriation made is **Unimpaired stream tributary to Little North Forkton River**

tributary of **Little North Forkton River (some time known as ...)**

3. The amount of water to be stored is **ONE ACRE FOOT** acre feet.

4. The use to be made of the impounded water is **irrigation** (irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. **11, T. 21 N., R. 2 E., S. 1 E.** (Give sections or townships to be submerged)

T. **21 N.**, R. **2 E.**, W. M., in the county of **Marion**

(a) State whether situated in channel of running stream and give character of material at outlet

in channel of stream

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in **between West line of Sec. 11**

T. **21 N.**, R. **2 E.**, W. M. The maximum height will be **12** feet above stream bed or ground surface on center line of dam. The length on top will be **100** feet; length on bottom **30** feet; width on top **12** feet; slope of front or water side **3/4** slope on back **1/4** height of dam above water line

when full **5 x 3** feet

* A different form of application should be used for the appropriation of stored water to beneficial use without charge, together with instructions, by addressing the State Engineer, Salem, Oregon

7. The construction of dam, the material of which it is to be built, and method of protection from

has this special protection necessary - Only 1.25 a.ft storage

8. The location of outlet with dimensions are as follows: around right side of dam
(State whether over or around the dam)

7' bottom - 5' depth 26' top width

9. The location of outlet from the proposed reservoir, with character of construction and dimensions,

are as follows: 12" dia 12" cast iron pipe with 3 conc. collars
(State whether through or around the proposed dam)

12" x 12" x 6" spaced 12' apart from outlet entrance

10. The area submerged by the proposed reservoir, when full, will be 0.75 acres,

with a maximum depth of water of 4.5' feet, and approximate mean depth of water

1' feet.

11. The estimated cost of the proposed work is \$

12. Construction work will begin on or before

Completed

13. Construction work will be completed on or before
