

STATE OF OREGON

COUNTY OF BAKER

PERMIT TO CONSTRUCT A RESERVOIR AND STORE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

JOHN FISHER
235 MONTGOMERY ST SUITE 610
SAN FRANCISCO, CA 94104

(650) 329-8290

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: R-86224

SOURCE OF WATER: HIDDEN SPRING

STORAGE FACILITY: HIDDEN POND

PURPOSE OR USE OF THE STORED WATER: FIRE PROTECTION; LIVESTOCK;
WILDLIFE; WETLAND ENHANCEMENT

MAXIMUM STORAGE VOLUME: 9.0 ACRE FEET EACH YEAR

WATER MAY BE APPROPRIATED FOR STORAGE DURING THE PERIOD: YEAR ROUND

DATE OF PRIORITY: APRIL 1, 2005

THE MAXIMUM HEIGHT OF THE DAM SHALL NOT EXCEED 10.0 FEET.

DAM LOCATION: NW 1/4 SW 1/4, SECTION 10, T7S, R38E, W.M.; 1740 FEET
NORTH & 1100 FEET EAST FROM SW CORNER, SECTION 10

THE AREA TO BE SUBMERGED BY THE RESERVOIR IS LOCATED AS FOLLOWS:

NW 1/4 SW 1/4
SECTION 10
TOWNSHIP 7th SOUTH, RANGE 38 EAST, W.M.

Measurement, recording and reporting conditions:

- A. The Director may require the water user to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the water user to install a meter or other measuring device, the water user shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the water user shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The

Director may provide an opportunity for the water user to submit alternative measuring procedures for review and approval.

- B. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe, or the provision of other means to evacuate water when determined necessary by the Water Resources Director to satisfy prior downstream rights.

The water user shall pass all live flow outside the storage season described above.

This permit does not provide for the appropriation of water for any out of reservoir uses, the maintenance of the water level or maintaining a suitable fresh water condition. If any water is used for out of reservoir uses, or any live flow is appropriated to maintain either the water level or a suitable freshwater condition, a secondary water right is required.

The water user shall submit for approval a complete set of engineered design plans and specifications if it is determined that the structure is equal to or greater than 10 feet in height and 9.2 acre-feet storage capacity.

STANDARD CONDITIONS

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

This permit does not authorize the permit holder to pursue this right in such a way as to interfere with or affect adjacent property not under the ownership of the permit holder.

The reservoir shall be filled and complete application of the stored water to the use shall be made on or before October 1, 2009.

Within one year after complete application of water to the proposed use, the water user shall submit a claim of beneficial use to the Oregon Water Resources Department.

The claim of beneficial use shall be prepared by a Certified Water Right Examiner in conformance with the requirements of OAR 690-014 if an associated secondary permit exists for the use of stored water under this permit, or if the reservoir stores 9.2 or more acre-feet of water.

If no secondary permit exists and the reservoir stores less than 9.2 acre-feet of water, the claim of beneficial use need not be prepared by a Certified Water Right Examiner. The information submitted to the Oregon Water Resources Department shall include:

- (a) the dimensions of the reservoir;
- (b) the maximum capacity of the reservoir in acre-feet; and
- (c) a map identifying the location of the reservoir prepared in compliance with Water Resource Department standards.

Issued July 14, 2005

Phillip C. Ward, Director
Water Resources Department
