

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, N. W. Handelaar (Name of Applicant)

of D. N. Ray CR Warrens Ranch (Address)

State of Oregon do hereby make application for a permit to construct the

following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation (Individual)

1. The name of the proposed reservoir is Morgan Spring Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is NOVAHILL SPRING

tributary of no other water course.

3. The amount of water to be stored is Approximately 25,000 gallons acre feet.

4. The use to be made of the impounded water is domestic supply (Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 25 (Give sections or townships to be submerged)

Tp. 9, S. 2, R. 11, W. M. in the county of Lincoln.

(a) State whether situated in channel of running stream and give character of material at outlet

It is not in any channel of running stream. It is to be filled by a pipe directly from the spring where it issues from the ground.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions. See (a) last above.

6. The dam will be located in NO DAM Sec. _____

The maximum height will be _____ feet above stream bed or ground

surface on center line of dam. The length on top will be _____ feet; length on bottom _____ feet; width on top _____ feet; slope of front

or water side _____; slope on back _____; height of dam above water line

when full _____ feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

67890

7. The construction of dam, the material of which it is to be built, and method of protection from

are as follows:

NO DAM

8. The location of wasteway with dimensions are as follows:

(State whether over or around the dam)

NO DAM

9. The location of outlet from the proposed reservoir, with character of construction and dimensions,

are as follows: The proposed reservoir, 20 feet in diameter and ten feet high, to be constructed of reinforced concrete will be adjacent to the spring, which issues from the bank. The outlet wasteway will be by 2" standard black-dipped pipe.

10. The area submerged by the proposed reservoir, when full, will be 10000 acres, with a maximum depth of water of 10 feet, and approximate mean depth of water 5 feet.

11. The estimated cost of the proposed work is \$2,500.00

12. Construction work will begin on or before May 1, 1952

13. Construction work will be completed on or before July 1, 1952
