

# Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, MURION DANIEL  
(Name of Applicant)

of Route 1, Jacksonville  
(Mailing Address)

State of Oregon do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is #1 and #2 Daniel Reservoirs

2. The name of the stream from which the reservoir is to be filled and the appropriation made is unnamed stream, a tributary of Big Applegate River

tributary of Beagle River

3. The amount of water to be stored is 5.5 acre feet

4. The use to be made of the impounded water is irrigation  
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 36  
(Give sections or townships to be submerged)

Tp. 28 S. R. 2 W. M., in the county of Jackson

(a) State whether situated in channel of running stream and give character of material at outlet  
Dams will be constructed in channel of semi-running stream with heavy soil and rocks at outlet

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions. Note: Some of the stored water in #2 reservoir may be carried down stream and picked up in #1 reservoir during dry part of year

6. The dam will be located in (both) Sec. 36

Tp. 30 S. R. 2 W. M. The maximum height will be 9.5 feet above stream bed or ground surface on center line of dam. The length on top will be #1 - 115 ft.; #2 - 95 feet; length on bottom (both) 10 feet; width on top (both) 10 feet; slope of front

of water side (both) 2 to 1; slope on back (both) 2 to 1; height of dam above water line when full (both) 1.5 feet.

A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows:

both dams will be constructed of heavy soil well packed down by bulldozer in straight layers (all dirt will come from inside reservoir sight) no method of protection from wave action anticipated.

8. The location of wasteway with dimensions are as follows: both dams will have the spillway around south end of dam being 10 feet wide and 2.5 feet deep

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: through bottom of both dams using 12-inch steel pipe and screw type control valves. Two concrete cut-off walls to be built within each dam.

10. The area submerged by the proposed reservoir when full will be (approx) 0.5 acres with a maximum depth of water of (approx) 6.0 feet; and approximate mean depth of water 4.0 ft and feet.

11. The estimated cost of the proposed work is \$ 5,000.00

12. Construction work will begin on or before 1 yrs. from date of priority

13. Construction work will be completed on or before 2 yrs. from date of priority

*W. A. ...*  
(Name of applicant)

STATE OF OREGON,  
County of Marion,

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction or completion as follows:

In order to retain its priority, this application must be returned to the State Engineer, with corrections, on or before 15

WITNESS my hand this ... day of ... 19...

STATE ENGINEER

Remarks:

STATE OF OREGON

County of Marion

This is to certify that I have examined the foregoing application and do hereby grant the same subject to the following limitations and conditions:

The right herein granted is limited to the construction of No. 1 and No. 2 Dunlap Reservoirs and the storage of water from an Unimproved Stream to be appropriated under Application No. 27665, Permit No. 21785

The right hereunder shall be limited to the storage of 5.5 acre feet.

The priority date of this permit is September 19, 1952

Actual construction work shall begin on or before March 31, 1954

and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1955

WITNESS my hand this 11th day of March 1953

[Handwritten signature and stamp]

STATE ENGINEER
