

STATE OF OREGON

COUNTY OF DOUGLAS

PERMIT TO CONSTRUCT A RESERVOIR AND STORE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO:

KIRPAL LIGHT SATSANG INC  
PO BOX 10  
UMPQUA OR 97486

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: R-85702

SOURCE OF WATER: UNNAMED STREAM, TRIBUTARY TO MILL CREEK

STORAGE FACILITY: DAVE'S POND

MAXIMUM VOLUME: 3.0 ACRE FEET

DATE OF PRIORITY: JULY 11, 2003

USE: MULTIPLE PURPOSE

WATER MAY BE APPROPRIATED DURING THE PERIOD: NOVEMBER 1 THROUGH  
SEPTEMBER 30

**Dam Location/Authorized Point of Diversion:**

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
25 S	7 W	WM	10	SW NE	1900 FEET SOUTH AND 1600 FEET WEST FROM NE CORNER, SECTION 10

**The Area To Be Submerged:**

Twp	Rng	Mer	Sec	Q-Q
25 S	7 W	WM	10	SW NE

Measurement, recording and reporting conditions:

- A. The Director may require the permittee to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the permittee to install a meter or other measuring device, the permittee shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the permittee shall maintain the meter or measuring device in good working order, and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the permittee to submit alternative measuring procedures for review and approval.
- B. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used, and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use, and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The use of water allowed herein may be made only at times when waters from the unnamed stream and surface run-off would not otherwise flow into a tributary of the South Umpqua or mainstream Umpqua or sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

If fish is stocked in the pond, then a fish transport permit must be obtained from the local ODFW office. All pond outlets must be double screened to prevent escape. The mesh size shall be small enough to prevent escape of juvenile fish from the pond.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe, or the provision of other means to evacuate water when determined necessary by the Water Resources Director to satisfy prior downstream rights.

The permittee shall pass all live flow outside the storage season described above.

This permit does not provide for the appropriation of water for any out of reservoir uses, the maintenance of the water level or maintaining a suitable freshwater condition. If any water is used for out of reservoir uses, or any live flow is appropriated to maintain either the water level or a suitable freshwater condition, a secondary water right is required.

#### **STANDARD CONDITIONS**

1. Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.
2. This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
3. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.
4. The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.
5. The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.
6. The reservoir shall be filled and complete application of the stored water to the use shall be made on or before October 1, 2008.
7. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use to the Oregon Water Resources Department.
8. The claim of beneficial use shall be prepared by a Certified Water Right Examiner in conformance with the requirements of OAR 690-014 if an associated secondary permit exists for the use of stored water under this permit, or if the reservoir capacity is equal to or greater than 9.2 acre-feet.

9. If no secondary permit exists and the reservoir capacity is less than 9.2 acre-feet of water, the claim of beneficial use need not be prepared by a Certified Water Right Examiner. The information submitted to the Oregon Water Resources Department shall include:
- a. the dimensions of the reservoir;
  - b. the maximum capacity of the reservoir in acre-feet; and
  - c. a map identifying the location of the reservoir prepared in compliance with Water Resource Department standards.

**This permit is issued to correctly describe the location of the place of use. Permit R-13788, dated November 25, 1993, is superseded by this instrument and is of no further force or effect.**

Issued NOVEMBER 7, 2008.

E. Timothy Wall.

for Phillip C. Ward, Director  
Water Resources Department
