

**Application for a Permit to Construct a Reservoir and to
Store for Beneficial Use the Unappropriated
Waters of the State of Oregon**

I, James E. Compton

Date of Application

Route 1 Box 320

Central Point

Route 1 Box 320

Mailing Address

City of Central Point

State of Oregon

do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Watson Ranch Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is China Gulch, a tributary of Kanes Creek

tributary of Rogue River

3. The amount of water to be stored is 2.0 acre feet.

4. The use to be made of the impounded water is Irrigation

5. The location of the proposed reservoir will be in Sec. 35

Tp. 36 S., R. 3 W., W.M. in the county of Jackson

(a) State whether situated in channel of running stream and give character of material at outlet

Bank constructed in channel of China Gulch with heavy clay soil at outlet.

Let,

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in Sec. 35, Soc. 35

Tp. 36 S., R. 3 W., W.M. The maximum height will be 25 feet above stream bed or ground surface on center line of dam. The length on top will be 650 feet; length on

bottom 60 feet; width on top 11.0 feet; slope of front or water side 3 to 1; slope on back 2 to 1; height of dam above water line when full 25 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Dam constructed of heavy clay in 4 to 6 inch layers, well packed down by D-T cat. No protection from wave action anticipated, except for planting of grass.

8. The location of roadway with dimensions are as follows: The roadway is around bank and of dam being 10 feet wide at top, 10 feet wide on the bottom, and 30 feet long.

9. The location of outlet will be proposed reservoir, with character of construction and dimensions, are as follows: A 12 inch corrugated steel pipe through bottom of dam, being 30 feet in length - 12 inch screw type control valve on front of pipe.

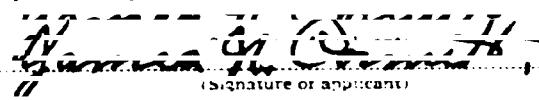

2. concrete cutoff walls in dam around pipe.

10. The area submerged by the proposed reservoir, when full, will be 9.0 acres, with a maximum depth of water of 7.0 feet; and approximate mean depth of water 4.0 feet.

11. The estimated cost of the proposed work is \$ 500.00.

12. Construction work will begin on or before 1 year from date of application.

13. Construction work will be completed on or before 2 years, from date of application.
