Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Stoughton Paulson
(Name of Applicant)

of Rt. 1 Clackamas
(County)

State of OREGON, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Un-named

2. The name of the stream from which the reservoir is to be filled and the appropriation made is

Un-named

tributary of Rock Creek

3. The amount of water to be stored is 2 acre feet.

4. The use to be made of the impounded water is Irrigation
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 6
(Give sections or townships to be embraced)

Tp. 2S R. 3E W. M. in the county of CLACKAMAS

(a) State whether situated in channel of running stream and give character of material at outlet

The dam will be situated in the channel of a running stream and will be on a gravelly stream bed.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in Un-named Sec. 6
(Smallest legal subdivision)

Tp. 2S R. 3E W. M. The maximum height will be 10 feet above stream bed or ground

surface on center line of dam. The length on top will be 127.5 feet; length on

bottom 125 feet; width on top 10 feet; slope of front

or water side 2:1; slope on back 2:1; height of dam above water line

when full 2 feet

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows:

The dam will be an earth fill structure built with heavy equipment. A log boom will be placed around the dam on the water surface.

8. The location of wasteway with dimensions are as follows: The spillway will be

around the dam and will be 2 feet deep and 5 feet wide.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows:

The outlet will be through the center of the dam and will be metal pipe with concrete collars and a inlet valve.

2 1/2" pipe in 24" diameter

10. The area submerged by the proposed reservoir, when full, will be 1 acre,

with a maximum depth of water of 8-10 feet; and approximate mean depth of water 4.5 feet

11. The estimated cost of the proposed work is \$ 500.00

12. Construction work will begin on or before September 15, 1953

13. Construction work will be completed on or before September 15, 1953
