

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Fred L. Meyer
(Name of Applicant)
Route 6, Box 75, Salem
(Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is unnamed

2. The name of the stream from which the reservoir is to be filled and the appropriation made is unnamed - locally known as Wallace Creek, a tributary of Gibson Creek, a tributary of Willamette River

3. The amount of water to be stored is 240 acre feet.

4. The use to be made of the impounded water is irrigation and domestic supply

5. The location of the proposed reservoir will be in Sec. 7

Tp. 3 R. 3 West W. M., in the county of Polk

(a) State whether situated in channel of running stream and give character of material at outlet
In channel of rock-bottomed creek.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in Sec. 7

Tp. 3 R. 3 West W. M. The maximum height will be 32 feet above stream bed or ground surface on center line of dam. The width on top will be _____ feet; length on bottom _____ feet; width on top _____ feet; slope of front _____ feet; slope of back _____ feet; height of dam above water line _____ feet.

or water side _____, slope on back _____, height of dam above water line _____

when full _____ feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by contacting the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from

waves are as follows: Roller concrete dam, with rock apron where required to prevent erosion.

8. The location of wasteway, with dimensions are as follows: Around South end in
(State whether over or around the dam)

5-foot bottom, rock-lined canal

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: 12" concrete side with cut-off collars and 12" cast-iron slide gate.
(All dams across natural stream channels must be provided with an outlet conduit of such capacity and location to pass the normal flow of the stream at any time.)

10. The area submerged by the proposed reservoir, when full, will be 0.3 acres, with a maximum depth of water of 15 feet; and approximate mean depth of water 7 feet.

11. The estimated cost of the proposed work is \$ 1,600.00

12. Construction work will begin on or before June 1, 1953

13. Construction work will be completed on or before August 1, 1953
