

Reservoir Permit No. 1502

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

1. Frederick John and Dora Louise Morgan
(Name of Applicant)

of P.O. Box 676 Gresham
(Mailing Address)

State of OREGON, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is

2. The name of the stream from which the reservoir is to be filled and the appropriation made is

BEAVER CREEK
tributary of SANDY CREEK

3. The amount of water to be stored is 100 acre feet.

4. The use to be made of the impounded water is irrigation
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. _____
(Give sections or township to be submerged)

Tp. 1, R. E, W. M., in the county of _____

(a) State whether situated in channel of running stream and give character of material at outlet

not in channel of running stream

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in NE 1/4, SW 1/4, Sec. _____
(Smallest legal subdivision)

Tp. 1, R. E, W. M. The maximum height will be 10 feet above stream bed or ground

surface on center line of dam. The length on top will be _____ feet; length on

bottom _____ feet; width on top _____ feet; slope of front

or water side _____: slope on back _____: height of dam above water line

when full _____ feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from
waves are as follows: Built of concrete with earth fill

8. The location of wasteway with dimensions are as follows: Dam has 5 1/2 ft by
(State whether over or around the dam)
6 ft opening in concrete portion on center
line. With a concrete and wood apron. Apron
extends ^{down} to top of stream bed.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions,
are as follows: approx 15 ft down and out
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the
normal flow of the stream at any time.)

10. The area submerged by the proposed reservoir, when full, will be 1.30 acres,
with a maximum depth of water of 6 feet; and approximate mean depth of water
3 feet.

- 11. The estimated cost of the proposed work is \$
- 12. Construction work will begin on or before (see item 13)
- 13. Construction work will be completed on or before

This is to certify that I have examined the foregoing application, together with the accompanying
maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with cor-
rections, on or before, 19.....

WITNESS my hand this day of, 19.....

STATE ENGINEER

~~Since~~ This farm has had a dam at this location
 for a year or more, in those days. no permit
 was necessary as far as can be learned. The
 as dams washed out or were damaged by flood
 we rebuilt. We put in fish ladder at ~~some~~
 ing to rules. Then when irrigation started we
 were told we had no permit & they wanted some
 one, but told us to keep on watering ~~until~~
 until some objection was raised. Then we
 filled on 1st chance when stream was
 open for filling.

STATE OF OREGON, }
 County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: The right herein granted is limited to the construction of a reservoir and the storage of water from Beaver Creek to be appropriated under Application No. 28667, Permit No. 22574 for irrigation.

The right hereunder shall be limited to the storage of 1.0 acre feet.

The priority date of this permit is September 15, 1953

Actual construction work shall begin on or before January 22, 1955 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1955.

WITNESS my hand this 22nd day of January, 1954.
