

Reservoir Permit No. 1666

USE
Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, J. Wesley Webb

(Name of Applicant)

of P. O. Box 604, Salem, Oregon

(Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

existing

1. The name of the proposed reservoir is the former Silverfalls Timber Company's Log Pond

2. The name of the stream from which the reservoir is to be filled and the appropriation made is 2 Unnamed Streams and over-flow from the City of Silverton Reservoir-tributary of Abiqua

3. The amount of water to be stored is 68.4 acre feet.

4. The use to be made of the impounded water is irrigation

(Duration, place, date, etc. supply, etc.)

5. The location of the proposed reservoir is in Sec. 26

(If the reservoir is to be submerged)

T. 2 N., R. 2 E., W. 1/2, in the county of Marion

6. Describe the channel of running stream and give character of material at outlet

7. Describe the material on which the reservoir is to be constructed

8. Describe the material on which the reservoir is to be constructed

9. Describe the method of filling the reservoir. If through a feed canal, give

Sec. 26

feet above stream bed or ground

feet; length on

feet; slope of front

height of dam above water line

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: This pond was built in 1906 or 1907 and has been in use since that time. The materials in the dyke were taken from the pond site.

8. The location of wasteway with dimensions are as follows: At approximate mid-point on North end of pond, being 3105.5 feet West and 98.0 feet South of the North East corner of the James Brown D.L.C. in T.6 S. R. 1 W. Size 3.0 ft deep, 6.0 feet wide and 25.00 feet long.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions are as follows: Existing 18" drain under existing spillway: The proposed new spillway will pass a larger flow than the existing spillway under the county road which must carry all overflow.

10. The area submerged by the existing proposed reservoir, when full, will be 11.4 with a maximum depth of water of 12.0 feet; and approximately 6 feet.

11. The estimated cost of the proposed work is \$ 500.00

12. Construction work will begin on or before

13. Construction work will be completed on or before
