Reservoir Permit No. 1728

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Gilbert Howard Wiley
(Name of Applicant)

of Box 272, Mosier
(Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation No

1. The name of the proposed reservoir is SkyRanch No. 3

2. The name of the stream from which the reservoir is to be filled and the appropriation made is intermittent drainage from December to May

tributary of Mosier Creek (West Fork)

3. The amount of water to be stored is 4 acre feet.

4. The use to be made of the impounded water is Stock water
(Irrigation power, direct supply, etc.)

5. The location of the proposed reservoir will be in Sec. 36
(Give section, township and range to be submerged)

Tp. 2 N., R. 11 E., W. M., in the county of Wasco

(a) State whether situated in channel of running stream and give character of material at outlet
Intermittent drainage from December to May

Material - medium textured soil

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions
Intermittent drainage from December to May and storage to be obtained during that time.

6. The dam will be located in SW 1/4 SW 1/4 Sec. 36
(Smallest legal subdivision)

Tp. 2 N., R. 11 E., W. M. The maximum height will be 20 feet above stream bed or ground

surface on center line of dam. The length on top will be 260 feet; length on

bottom 100 feet; width on top 15+ feet; slope of front

or water side 3 to 1; slope on back 2 to 1; height of dam above water line
(Feet horizontal to 1 vertical)

when full 4 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: See Specificationsheet of construction. Medium textured soil,
Rock riprap on face of dam

8. The location of wasteway with dimensions are as follows: Around the dam. See part 5
(State whether over or around the dam)
of Specification sheet attached. East Side of the dam, 4 feet
deep and 16 feet wide T2N, Range 11E Section 36, SW 1/4 SW 1/4

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: Around the dam. See part 5 of the specification sheet attached.
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time)
Normal flow will be carried past the dam in a ditch, diverting at a point above the pond and returning to the waterway below the dam.

10. The area submerged by the proposed reservoir, when full, will be 1 acres, with a maximum depth of water of 16 feet; and approximate mean depth of water 4 feet.

11. The estimated cost of the proposed work is \$ 1400.00

12. Construction work will begin on or before November 1, 1953 June 1, 1955

13. Construction work will be completed on or before December 15, 1953 August 1, 1955

Gilbert H. Wiley
(Signature of applicant)

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections, on or before June 20, 19 55.

WITNESS my hand this 18th day of May, 19 55.
