

Reservoir Permit No. R 1768

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Harold Johnson by Mrs. Harold Johnson (Name of Applicant) of Rt 2 Box 50 (Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Johnson Dam

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Branch of Joint creek tributary of Luckiamute River

3. The amount of water to be stored is one acre feet.

4. The use to be made of the impounded water is Irrigation (Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 6 (Give sections or townships to be submerged) Tp. 10 S., R. 5 W., W. M., in the county of Polk - Oregon

(a) State whether situated in channel of running stream and give character of material at outlet 24" corrugated pipe

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in SW 1/4 of NW 1/4 (Smallest legal subdivisions) Sec. 6 Tp. 10 S., R. 5 W., W. M. The maximum height will be 7 feet above stream bed or ground surface on center line of dam. The length on top will be 30 feet; length on bottom 20 feet; width on top 8 feet; slope of front or water side 3:1; slope on back 2:1; height of dam above water line when full 2 feet.

* A different form of application should be used for the appropriation of water to beneficial use. Such forms can be obtained without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

R 1768

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Earth & Concrete

8. The location of wasteway with dimensions are as follows: at each end of dam - concrete spillways
(State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: 24" coated corr pipe in cut off trench - center of dam
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time.)

10. The area submerged by the proposed reservoir, when full, will be 1/3 acres, with a maximum depth of water of 3 feet; and approximate mean depth of water 3 feet.

11. The estimated cost of the proposed work is \$ 4500.00

12. Construction work will begin on or before immediately

13. Construction work will be completed on or before Oct 7 1956
