SALEM, OREGON

Reservoir Permit No. 1731

### Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, GARIBALDI WATER DISTRICT  
(Name of Applicant)

of GARIBALDI, OREGON  
(Mailing Address)

State of OREGON, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Struby Creek Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Struby Creek

tributary of Miami River  
175000 gals.

3. The amount of water to be stored is 1/80 of an Acre acre feet.

4. The use to be made of the impounded water is Municipal water service  
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. SE 1 of SE 1 of Sec. 15 Twp. 1N R 10  
(Give sections or townships to be submerged)

Tp. 1N, R. 10, W. M., in the county of Tillamook

(a) State whether situated in channel of running stream and give character of material at outlet

Dam will be in Channel of running stream. Material: Reinforced concrete and steel

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in SE 1 of SE 1 Sec. 15  
(Smallest legal subdivision)

Tp. 1N, R. 10, W. M. The maximum height will be 9' 11" above stream bed or ground surface on center line of dam. The length on top will be 40 feet; length on bottom 12 feet; width on top 1 feet; slope of front or water side 3; slope on back None; height of dam above water line when full 1 feet.

\* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be obtained without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Material is to be concrete reinforced with Steel. Foundation is base rock reinforcing rods being imbedded into the base rock.

8. The location of wasteway with dimensions are as follows: 10 ft. above natural Stream bed  
(State whether over or around the dam)  
Through a spillway in the center of the dam.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: Gate lift Valve 18" in diameter  
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time.)

10. The area submerged by the proposed resevoir, when full, will be 1/80th acres, with a maximum depth of water of 9' 11" feet; and approximate mean depth of water 5' feet.

11. The estimated cost of the proposed work is \$ 3000.00

12. Construction work will begin on or before May 1. 1955

13. Construction work will be completed on or before July 1. 1955
