Reservoir Permit No. R 1829

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Norman Webb
(Name of Applicant)

of Williams
(Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Webb Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is No Name seepage and Williams Creek, tributary of Williams Creek to Applegate River.

3. The amount of water to be stored is 40 acre feet.

4. The use to be made of the impounded water is irrigation
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 23
(Give sections or townships to be submerged)

Tp. 33 N., R. 5 W., W. M., in the county of Josephine

(a) State whether situated in channel of running stream and give character of material at outlet not in channel.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions. Seepage water from No Name Seepage. Pump from Williams Creek through 700 feet of 12" pipe.

6. The dam will be located in Sec. 23
(Small stream, for all subdivisions)

Tp. 33 N., R. 5 W., W. M. The maximum height will be 6 feet above stream bed or ground surface on center line of dam. The length on top will be 1200 feet; length on bottom 1000 feet; width on top 14 feet; slope of front 2 to 1; slope on back 2 to 1; height of dam above water line 2.5 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be obtained with this paper, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Earth dam. Blue clay and conglomerate material.

8. The location of wasteway with dimensions are as follows: Thorough cut, around dam.
(State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions are as follows: Outlet by pumping. No natural stream channel.
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time.)

10. The area submerged by the proposed resevoir, when full, will be 7.5 acres, with a maximum depth of water of 8 feet; and approximate mean depth of water 5.3 feet.

11. The estimated cost of the proposed work is \$ 5000.00.

12. Construction work will begin on or before Dec. 26, 1956.

13. Construction work will be completed on or before Dec. 26, 1957.
