

\* Reservoir Permit No. 1323

### Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, ALVIN Schalmereich (Name of Applicant)

of Rt. 4 Box 187 Hillsboro (Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is

2. The name of the stream from which the reservoir is to be filled and the appropriation made is

The stream originates from the drainage area tributary of the ...

3. The amount of water to be stored is 0.5 acre feet.

4. The use to be made of the impounded water is Irrigation

5. The location of the proposed reservoir will be in Sec. 31 Tp. 1 S R. 2 W W.M. in the county of

(a) State whether situated in channel of running stream and give character of material at outlet

dam is located across channel of stream

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in SE 1/4 Sec. 31 Tp. 1 S R. 2 W W.M. The maximum height will be 9 feet above stream bed or ground surface on center line of dam. The length on top will be 225 feet; length on bottom 32 feet; width on top 8 feet; slope of front or water side 2 1/2; slope on back 2; height of dam above water line when full 9 feet.

\* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: The dam is of earth construction  
grass planted on dam & around banks to protect  
from washing.

8. The location of wasteway with dimensions are as follows: Over flow is  
(State whether over or around the dam)  
upstream the end of the dam. Dimensions are  
3 1/2 feet deep and 5 feet wide.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: Outlet conduit will be  
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time.)  
and cement roller on upstream side.

10. The area submerged by the proposed reservoir, when full, will be 1 1/2 acres,  
with a maximum depth of water of 2 feet; and approximate mean depth of water  
1 feet.

- 11. The estimated cost of the proposed work is \$ 400.
- 12. Construction work will begin on or before was submitted.
- 13. Construction work will be completed on or before \_\_\_\_\_.

STATE OF OREGON, |  
County of Marion, | ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections, on or before December 16, 19 55.

WITNESS my hand this 17th day of October, 19 55.

LEWIS A. STANLEY  
STATE ENGINEER

Chris L. Wheeler  
Chris L. Wheeler, Assistant

GW

Remarks: This is a small seasonal stream it originates from the tile drainage system on my own farm. It usually starts to run about the first of November and runs up in the month of May. Its channel runs down a shallow draw or swale which is about two hundred feet across. About ten years ago we put a small dam across this draw to provide drinking water for our cattle. we put an overflow ditch around the dam which we left open in the winter and closed about the first of April we called the dam a dam and the excess water overflow until the stream is gone. In 1950 I built the dam to a height of four feet and this made a reservoir which was in part one - we took care and continued approximately 1000 ft. I had bought a fire hose system and installed it in the reservoir in case of fire. I would like to see the dam removed so that the water could run in the stream.

STATE OF OREGON, }  
 County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: The right herein granted is limited to the construction of

The right hereunder shall be limited to the storage of \_\_\_\_\_ acre feet.

The priority date of this permit is \_\_\_\_\_

Actual construction work shall begin on or before \_\_\_\_\_ and

shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19 \_\_\_\_\_

WITNESS my hand this \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_\_\_\_
