STATE ENGINEER
SALEM, OREGON

Reservoir Permit No. 1853

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Ernest R. Shipley (Name of Applicant)

of Jales Creek, Star Route, Oregon (Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation.

1. The name of the proposed reservoir is Shipley Pond

2. The name of the stream from which the reservoir is to be filled and the appropriation made is

tributary of Beulah

3. The amount of water to be stored is 2000 acre feet.

4. The use to be made of the impounded water is irrigation

5. The location of the proposed reservoir will be in Sec. 14

Tp. 5 R. 5 W. M. in the county of Clatsop

(a) State whether situated in channel of running stream and give character of material at outlet

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in 14 Sec.

Tp. 5 R. 5 W. M. The maximum height will be 20 feet above stream bed or ground surface on center line of dam. The length on top will be 100 feet; length on bottom 150 feet; width on top 10 feet; slope of front or water side 3-1; slope on back 2-1; height of dam above water line when full 20 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Earth dam packed with Bull Run gravel packed

8. The location of wasteway with dimensions are as follows: (State whether over or around the dam)

Around the dam - S. side of dam. Width 5 feet. Depth 14" below top of dam

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows:

(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time.) 12" steel culvert with concrete apron

10. The area submerged by the proposed reservoir, when full, will be ... acres, with a maximum depth of water of 5 feet; and approximate mean depth of water 1 feet.

11. The estimated cost of the proposed work is \$500.00

12. Construction work will begin on or before ... completed.

13. Construction work will be completed on or before ...

Signature of applicant

STATE OF OREGON, ss. County of Marion,

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections, on or before February 27 1956 July 11 1955

WITNESS my hand this 12th day of May 1956

LEWIS L. STANLEY STATE ENGINEER
