Reservoir Permit No. 1896

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, L. M. Boylan (Name of Applicant)

of Rt. 2 Box 677 (Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is

2. The name of the stream from which the reservoir is to be filled and the appropriation made is

tributary of

3. The amount of water to be stored is acre feet.

4. The use to be made of the impounded water is (Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. (Give sections or townships to be submerged)

Tp. R. W. M., in the county of

(a) State whether situated in channel of running stream and give character of material at outlet

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions line from dam described in No.

6. The Pond will be located in Sec. 12 Tp. R. W. M. The maximum height will be feet above stream bed or ground

surface on center line of dam. The length on top will be 10 feet; length on

bottom 10 feet; width on top 2 feet; slope of front

or water side none; slope on back none; height of dam above water line

when full about 4 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be obtained without charge together with instructions by addressing the State Engineer, Salem, Oregon.

7. The construction of ~~dam~~ ^{pond}, the material of which it is to be built, and method of protection from waves are as follows: ~~XX~~

~~Concrete - no hazard from waves exists~~

*Pond to be constructed entirely by excavation.
Excavated material to be wasted. No dyke.*

8. The location of wasteway with dimensions are as follows: ~~spill over the dam except as mentioned in #9~~ see "9" (State whether over or around the dam)

Off channel - not required

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: ~~The outlet will be by means of a pipe with simi off valve and will distribute the water as released upon the land~~ (All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time.)

Off channel - not required

10. The area submerged by the proposed resevoir, when full, will be .4 acres, with a mazimum depth of water of nine feet; and approximate mean depth of water seven feet.

11. The estimated cost of the proposed work is \$.00

12. Construction work will begin on or before _____

13. Construction work will be completed on or before _____
