STATE ENGINEER
SALEM, OREGON

• Reservoir Permit No. **1301**

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

1. Lester C Davidson
(Name of Applicant)

4. Route 5 Box 87 Salem Oregon
(Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Pond

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Impoundment
tributary of Little Rocking Creek

3. The amount of water to be stored is 2 acre feet

4. The use to be made of the impounded water is Irrigation
Irrigation, power, domestic, industrial

5. The location of the proposed reservoir will be in Sec. 2
(Give section, township, range, and county)
Tp. S 3, R. 2 W, W. M., in the county of Clatsop

(a) State whether situated in channel of running stream and give character of material at site
Stream of stream, 10' high

(b) If not in channel of running stream, state how it is to be filled. If through a dam, give name and dimensions

6. The dam will be located in Section 2

in Section 2, R. 2 W, W. M. The maximum height will be 21 feet

at the center line of dam. The length on top will be 100 feet

bottom 100 feet; width on top 10 feet

maximum slope 2 1/2 on back 1 on front

crest 2 feet

This application should be used for the purpose of storing water to be used for irrigation, power, domestic, industrial, or other beneficial uses.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: *Earth fill, no wave action anticipated, dam of small surface area and protection from heavy waves.*

8. The location of wasteway with dimensions are as follows: *See plan on map*
(State whether over or around the dam)
Concrete section 6' long x 1' deep

9. The location of outlet from the proposed reservoir, with character of construction and dimensions are as follows: *3" asphalt coated steel pipe*
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and position to pass the normal flow of the stream at any time.)

10. The area submerged by the proposed reservoir, when full, will be *1.2* acres with a maximum depth of water of *6.5* feet; and approximate mean depth of *3.5* feet.

11. The estimated cost of the proposed work is \$ *6.5*

12. Construction work will begin on or before *Jan. 1, 1912*

13. Construction work will be completed on or before *Jan. 1, 1912*
