Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, D. C. Buddell (Name of Applicant)

of 8204 N. Azusa & San Gabriel Canyon Road, Azusa, Calif. (Mailing Address)

State of California, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is D. C. Buddell

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Unnamed branch tributary of Coquille River

3. The amount of water to be stored is 54,000 cu. ft. acre feet.

4. The use to be made of the impounded water is irrigation (Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 4 Tp. 28 S., R. 14 W., W. M., in the county of COOS (Give sections or townships to be submerged)

(a) State whether situated in channel of running stream and give character of material at outlet In channel of branch. San fill dam in sandy location.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in SW of the SW, Sec. 4, Tp. 28 S., R. 14 W., W. M. The maximum height will be 14 feet above stream bed or ground surface on center line of dam. The length on top will be 100 feet; length on bottom 50 feet; width on top 10 feet; slope of front or water side 3 to 1; slope on back 3 to 1; height of dam above water line when full 6 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

1946

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Sand fill. No wave protection required.

8. The location of wasteway with dimensions are as follows: Around ^{Weed} end of ^{Reservoir} dam.
(State whether over or around the dam)
6-8 ft. 8 inches high x 8 ft. wide x ~~40~~ ft. long with 1 1/2 ft. drop on
on bottom in 40 ft. Constructed of 2 by 12 red cedar lumber.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions are as follows: None
(State whether through or around the proposed dam)

10. The area submerged by the proposed reservoir, when full, will be 1.5 acres.
with a maximum depth of water of 8 feet; and approximate mean depth of water
4 feet.

11. The estimated cost of the proposed work is \$ 3000.00

12. Construction work will begin on or before April 1, 1956

13. Construction work will be completed on or before July 1, 1956
