

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Benton Timber Products Corporation (Name of Applicant)

of P. O. Box 506 Philomath (Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation February 1, 1955

Benton County, Oregon

1. The name of the proposed reservoir is Benton Timber Products Log Pond

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Mary's River

tributary of Willimatte River

3. The amount of water to be stored is 21.2 acre feet.

4. The use to be made of the impounded water is Log storage pond (Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 11 (Give sections or townships to be submerged)

Tp. 12 S., R. 6 W., W. M., in the county of Benton

(a) State whether situated in channel of running stream and give character of material at outlet

Not situated in channel of running stream, the pond will be situated in a cultivated field, constructed of clayey silt.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions To be filled by pumping from Mary's River

6. The dam will be located in NE 1/4 of SW 1/4, Sec. 11, (Smallest legal subdivision)

Tp. 12 S., R. 6 W., W. M. The maximum height will be 9.7 feet above stream bed or ground surface on center line of dam. The length on top will be 1996 feet; length on bottom 1996 feet; width on top 8 feet; slope of front or water side 3 to 1; slope on back 2 to 1; height of dam above water line when full 2 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

Application No. R-33149
Reservoir Permit No. R-2246

PERMIT

To construct a reservoir and store for beneficial use the unappropriated waters of the State of Oregon.

~~This instrument was first received~~ in the office of the State Engineer at Salem, Oregon, on the 11 day of July, 1959, at 2:00 o'clock P.M.

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Benton Timber Products Corporation (Name of Applicant)

of P. O. Box 506 Philomath (Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation February 1, 1955

Benton County, Oregon

1. The name of the proposed reservoir is Benton Timber Products Log Pond

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Mary's River

tributary of Willimatte River

3. The amount of water to be stored is 21.2 acre feet.

4. The use to be made of the impounded water is Log storage pond (Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 11 (Give sections or townships to be submerged)

Tp. 12 S., R. 6 W., W. M., in the county of Benton

(a) State whether situated in channel of running stream and give character of material at outlet Not situated in channel of running stream, the pond will be situated in a cultivated field, constructed of clayey silt.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions To be filled by pumping from Mary's River

6. The dam will be located in NE 1/4 of SW 1/4 (Smallest legal subdivision), Sec. 11

Tp. 12 S., R. 6 W., W. M. The maximum height will be 9.7 feet above stream bed or ground surface on center line of dam. The length on top will be 199.6 feet; length on bottom 199.6 feet; width on top 8 feet; slope of front or water side 3 to 1 (Feet horizontal to 1 vertical); slope on back 2 to 1 (Feet horizontal to 1 vertical); height of dam above water line when full 2 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: To be constructed of compacted clayey silt. Placement of fill will be compacted by earth moving equipment. Wave protection will be provided by sodded banks, if required.

8. The location of wasteway with dimensions are as follows: 6" diameter pipe culvert through the dam at the maximum water surface elevation.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: None. (All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time.)

10. The area submerged by the proposed reservoir, when full, will be 2.87 acres, with a maximum depth of water of 11.0 feet; and approximate mean depth of water 7.4 feet.

11. The estimated cost of the proposed work is \$2,000.

12. Construction work will begin on or before June 1, 1959.

13. Construction work will be completed on or before July 1, 1959.
