Reservoir Permit No. 2332

### Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Jess Roberts, (Name of Applicant)

of Lakeview, (Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Willow Creek Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Willow Creek tributary of Drews Creek

3. The amount of water to be stored is 56 acre feet.

4. The use to be made of the impounded water is stock water and recreation (Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 6 and 7 (Give sections or townships to be submerged)

Tp. 40 S., R. 18 E., W. M., in the county of Lake

(a) State whether situated in channel of running stream and give character of material at outlet in small stream from springs. Material at outlet - sandy clay

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in Section 6, Sec. 6 (Smallest legal subdivision)

Tp. 40 S., R. 18 E., W. M. The maximum height will be 10 feet above stream bed or ground surface on center line of dam. The length on top will be 100 feet; length on bottom 100 feet; width on top 10 feet; slope of front or water side 1:1; slope on back 1:1; height of dam above water line when full 10 feet.

\* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be obtained without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: sandy clay core material; coarser shall material; basalt rock riprap on face.

8. The location of wasteway with dimensions are as follows: Around end of dam  
(State whether over or around the dam)  
18' bottom width at crest

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: 12" galvanized corrugated steel pipe 124' long with steel anti-siphon collars  
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time.)

10. The area submerged by the proposed reservoir, when full, will be 6.2 acres, with a maximum depth of water of 15.6 feet; and approximate mean depth of water 9 feet.

11. The estimated cost of the proposed work is \$ 2,000.00

12. Construction work will begin on or before            Completed           

13. Construction work will be completed on or before            Completed

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for           

In order to retain its priority, this application must be returned to the State Engineer, with corrections, on or before           , 19           

WITNESS my hand this            day of           , 19           

STATE ENGINEER

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: The right herein granted is limited to the construction of Willow Creek Reservoir and storage of water from Willow Creek to be appropriated under application No. 33635, permit No. 26617 for stock water and recreation, and the dam shall be constructed under the supervision of a registered professional engineer.

The right hereunder shall be limited to the storage of 50.0 acre feet.

The priority date of this permit is January 17, 1900

Actual construction work shall begin on or before May 13, 1901 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1902

WITNESS my hand this 13th day of May, 1900
