* Reservoir Permit No. 2660

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

1. Elmer Liswig
(Name of Applicant)

of R.#3 Aulsea, Oregon
(Mailing Address)

State of _____, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation _____

1. The name of the proposed reservoir is _____

2. The name of the stream from which the reservoir is to be filled and the appropriation made is

Fall Creek
tributary of Schooner Creek

3. The amount of water to be stored is 134 acre feet.

4. The use to be made of the impounded water is farm fish pond
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 19
(Give sections or townships to be submerged)

Tp. 7 S, R. 10 W, W.M., in the county of Lincoln

(a) State whether situated in channel of running stream and give character of material at outlet

In channel. Soil and small gravel mixed with good soil for compaction

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions _____

6. The dam will be located in SE of NE 1/4, Sec. 19
(Smallest legal subdivision)

Tp. 7 S, R. 10 W, W.M. The maximum height will be 10 feet above stream bed or ground

surface on center line of dam. The length on top will be 50 feet; length on

bottom 20 feet; width on top 10 feet; slope on front

or water side 3-1; slope on back 2-1; height of dam above water line
(Feet horizontal to 1 vertical) (Feet horizontal to 1 vertical)

when full 2 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Dam will be pushed in with bull dozer and packed with water. Fill material is of good grade of earth for compaction with enough rock to keep washing to a minimum.

8. The location of wasteway with dimensions are as follows: Waste water will flow around end through flume constructed of cedar planking - 1 1/2' x 4' (State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: Outlet will be 8" corrugated and dippe steel pipe. (All dams across natural stream channels must be provided with an outlet conduit of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be 1/3 acres, with a maximum depth of water of 8 feet; and approximate mean depth of water 5 feet.

11. The estimated cost of the proposed work is \$ 2500
12. Construction work will begin on or before Sept. 1 1961
13. Construction work will be completed on or before Oct. 1 1961

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion.

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before November 20 1961

WITNESS my hand this 18th day of September 1961
