Reservoir Permit No. 2663

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Ralph L. Johnson (Name of Applicant)

of P.O. Box 140, Heppner, Oregon (Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is

2. The name of the stream from which the reservoir is to be filled and the appropriation made is

tributary of

3. The amount of water to be stored is acre feet.

4. The use to be made of the impounded water is Irrigation (Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 1, Tp. 3, R. 2, W.M., in the county of

(a) State whether situated in channel of running stream and give character of material at outlet

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in Sec. 1, Tp. 3, R. 2, W.M. The maximum height will be feet above stream bed or ground surface on center line of dam. The length on top will be feet; length on bottom feet; width on top feet; slope on front or water side; slope on back; height of dam above water line when full feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: To be built of concrete on a foundation of rock. The dam will be 100 feet high and 100 feet wide at the top. It will be protected from waves by a concrete apron on the downstream side.

8. The location of wasteway with dimensions are as follows: 100 feet wide and 10 feet high. (State whether over or around the dam.)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: Outlet from the reservoir will be through a concrete pipe 10 feet in diameter. (All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be 100 acres with a maximum depth of water of 10 feet and approximate mean length of water 100 feet.

11. The estimated cost of the proposed work is \$ 10,000.00

12. Construction work will begin on or before 6

13. Construction work will be completed on or before 12
