

• Reservoir Permit No. 2865

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Plywood Products Corp. Name of Applicant

of P. O. Box 587, Corvallis MAILING ADDRESS

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation November 30, 1953
Oregon

1. The name of the proposed reservoir is Inply Mill Pond

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Inply Mill Wells

tributary of ---

3. The amount of water to be stored is 73.5 acre feet

4. The use to be made of the impounded water is plywood & stud mill log pond
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 20 and 21
(Give sections or townships, etc.)

Tp. 8S, R. 4W, W.M., in the county of Polk

(a) State whether situated in channel of running stream and give character of material at outlet

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions presently filled from well #2 (Inply)

6. The dam will be located in NW 1/4 (Smallest legal subdivision), Sec. 21, Tp. 8S, R. 4W, W.M. The maximum height will be 8.5 feet above stream bed or ground surface on center line of dam. The length on top will be 4500 feet; length on bottom 4500 feet; width on top 10' minimum feet; slope on front or water side 3:1 (Feet horizontal to 1 vertical); slope on back 3:1 (Feet horizontal to 1 vertical); height of dam above water line when full minimum 2 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Earth Fill

8. The location of wasteway with dimensions are as follows: ---

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: ---

(All dams across natural stream channels must be provided with an outlet conduit of such capacity and location to pass the normal flow of the stream at any time.)

10. The area submerged by the proposed reservoir, when full, will be 15.4 acres, with a maximum depth of water of 5 feet; and approximate mean depth of water 5 feet.

11. The estimated cost of the proposed work is \$ 20,000

12. Construction work will begin on or before

13. Construction work will be completed on or before completed August, 1961.
