

* Reservoir Permit No. **2961**

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, John and Mary P. Rinaldi

(Name of Applicant)

of Box 132 B, Umpqua

(Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is **Rita'di Lake**

2. The name of the stream from which the reservoir is to be filled and the appropriation made is
Unnamed spring fed stream

tributary of **Hubbard Creek**

3. The amount of water to be stored is **1½** acre feet.

4. The use to be made of the impounded water is **Fish & Recreation Use**

(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. S. E. ¼ N. W. ¼ of section 21

(Give sections or townships, etc., whenever possible)

Tp. 25 S., R. 7 W., W.M. in the county of Douglas

(a) State whether situated in channel of running stream and give character of material at outlet

In channel of unnamed stream

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in S. E. ¼ N. W. ¼ Sec. 21, (Smallest legal subdivision)

Tp. 25 S., R. 7 W., W.M. The maximum height will be **3** feet above stream bed or ground surface on center line of dam. The length on top will be **50** feet; length on bottom **50** feet; width on top **15** feet; slope on front or water side **3 To 1**; slope on back **3 To 1**; height of dam above water line when full **2** feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge together with instructions, by addressing the State Engineer, Salem, Oregon.

2961

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Dam is earth fill constructed by previous owner. No wave action in pond this small.

8. The location of waste bay with dimensions are as follows:

Overflow is located at natural channel
and is approx. 4 ft. wide and constructed
of concrete.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: During low water, normal flow is maintained (all dams across the stream channel) must be fed with an outlet capable of such capacity and location to pass the thru seepage. During high water, any excess spring normal flow of the stream at any time water proceeds over the overflow area in the natural course.

10. The area submerged by the proposed reservoir when full, will be _____ acres,
with a maximum depth of water of _____ feet; and approximate mean depth of water
_____ feet.

* 11. The estimated cost of the proposed work is \$

12. Construction work will begin on or before _____ Starts _____ month built by previous owner

13. Construction work will be completed on or before 25.

John Hinckley
Mary E. Hinckley

STATE OF OREGON.

County of Marion.

This is to certify that I have examined the foregoing application, together with the accompanying papers and data, and return the same for completion.

In order to retain its priority, this application must be returned to the State Engineer's office for
actions on or before July 30, 1962.

WITNESS my hand this 26th day of April 1962
