

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, FRED H. FERBER (Name of Applicant)

of 900 Cave Camp Road, Williams (Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Ferber's Folly

2. The name of the stream from which the reservoir is to be filled and the appropriation made is unnamed spring

tributary of West Fork of Williams Creek

3. The amount of water to be stored is 1.0 acre feet.

4. The use to be made of the impounded water is irrigation (Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 8 (Give sections or townships to be submerged)

Tp. 39S, R. 5W, W.M., in the county of Josephine

(a) State whether situated in channel of running stream and give character of material at outlet

Yes - This reservoir is excavated at center of spring which flows a small quantity of water in winter, approx. 300 feet, and disappears in neighbors field. A grass waterway at outlet to take care of winter overflow

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

Spring Fed

6. The dam will be located in SW 1/4 - NW 1/4, Sec. 8 (Smallest legal subdivision)

Tp. 39S, R. 5W, W.M. The maximum depth will be 10 feet below stream bed or ground no fill above ground surface on center line of dam. The length on top will be 125' x 75' feet; length on

bottom 25' x 75' feet; width on top feet; slope on front

or water side 2 to 1; slope on back none; depth of reservoir below height of dam above water line ground surface when full 10 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: No fill material will be used to hold water. This will be an excavation below land surface.

8. The location of wasteway with dimensions are as follows: water will flow out of reservoir at lowest point of ground elevation into a grass waterway. Top width 12 feet bottom 6 ft. - 6 to 1 side slopes which will run to the west fork of Williams Creek.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: No outlet of this type needed.

10. The area submerged by the proposed reservoir, when full, will be 9.11 acres, with a maximum depth of water of 10 feet; and approximate mean depth of water 8 feet.

11. The estimated cost of the proposed work is \$ 600.00

12. Construction work will begin on or before May 1, 1963

13. Construction work will be completed on or before May 1, 1964
