

\* Reservoir Permit No. **3236**

# Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Bureau of Land Management  
(Name of Applicant)

of 1133 South Riverside, Medford, Oregon  
(Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Cabin 90 Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Mill Creek a tributary of Keene Creek a tributary of Jenny Creek a tributary of the Klamath River

3. The amount of water to be stored is less than 1/4 acre feet.

4. The use to be made of the impounded water is Stock watering purposes  
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 21  
(Give sections or townships to be submerged)  
Tp. 40 S., R. 3 E., W.M., in the county of Jackson

(a) State whether situated in channel of running stream and give character of material at outlet  
Located in an intermittent stream. Material at outlet a rocky, heavy soil.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in NE 1/4, Sec. 21,  
(Smallest legal subdivision)  
Tp. 40 S., R. 3 E., W.M. The maximum height will be 6 feet above stream bed or ground surface on center line of dam. The length on top will be 65 feet; length on bottom 72 feet; width on top 12 feet; slope on front or water side 2:1; slope on back 1:1; height of dam above water line when full 2 feet.  
(Feet horizontal to 1 vertical) (Feet horizontal to 1 vertical)

\* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Dam was built by a D-7 tractor with angle dozer of the soil at the immediate site. It is too small to require protection from wave action.

8. The location of wasteway with dimensions are as follows: Spillway around the end of the dam is 14 feet wide and 2 feet deep. (State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: See 8 above. The spillway is much larger than the normal channel. (All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be less than 1/10 acres, with a maximum depth of water of 2 feet; and approximate mean depth of water 2 feet.

11. The estimated cost of the proposed work is \$ 108.00

12. Construction work will begin on or before The reservoir was constructed under the authority of the Taylor Grazing Act before BIV was required to make water fillings.

13. Construction work will be completed on or before

(Signature of applicant) ACTING

STATE OF OREGON, } ss. County of Marion,

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19

WITNESS my hand this day of, 19

STATE ENGINEER

By ASSISTANT

Remarks: .....

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: The right herein granted is limited to the construction of Cabin 90 Reservoir and storage of water from Mill Creek for stock and is subject to the installation and maintenance of an outlet pipe, or to provide other means to evacuate the stored water when determined by the State Engineer to be necessary to satisfy prior downstream rights.

The right hereunder shall be limited to the storage of 0.2 acre feet.

The priority date of this permit is July 20, 1961

Actual construction work shall begin on or before June 24, 1964 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1965.

WITNESS my hand this 24th day of June, 1963.

*John L. Wheeler*  
STATE ENGINEER

Application No. R 35217  
Reservoir Permit No. R 3236
