

* Reservoir Permit No. 3238

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Bureau of Land Management
(Name of Applicant)of 1133 South Riverside, Medford, Oregon
(Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Fall Creek Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is

Fall Creektributary of the Klamath River3. The amount of water to be stored is less than $\frac{1}{4}$ acre feet.4. The use to be made of the impounded water is for stock watering purposes
(Irrigation, power, domestic supply, etc.)5. The location of the proposed reservoir will be in Sec. 35
(Give sections or townships to be submerged)Tp. 40 S, R. 4 E, W.M., in the county of Jackson

(a) State whether situated in channel of running stream and give character of material at outlet

Located in an intermittent stream. Out let is very rocky.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 35
(Smallest legal subdivision)

Tp. 40 S, R. 4 E, W.M. The maximum height will be 6 feet above stream bed or ground surface on center line of dam. The length on top will be 87 feet; length on bottom 60 feet; width on top 12' feet; slope on front or water side 1:1; slope on back 1:1; height of dam above water line when full 2 feet.

(Feet horizontal to 1 vertical) (Feet horizontal to 1 vertical)

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Built by TD-18 angle dozer of the rocky soil at the site. Due to its small size no protection against wave action is required.

8. The location of wasteway with dimensions are as follows: Spillway around the end of the dam -- 12 feet wide and 2 feet deep
(State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: See 8 above. Spillway is wider and deeper than the normal channel
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be less than 1/10 acres, with a maximum depth of water of 4 feet; and approximate mean depth of water 2 feet.

11. The estimated cost of the proposed work is \$ 117.50

12. Construction work will begin on or before constructed under the authority of The Taylor Grazing Act of 1934 before BLM was required to make filings.

13. Construction work will be completed on or before _____
