

Reservoir Permit No. 3418

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Frank F. Probes (Name of Applicant)

of 2301 Box 227 Sheridan, Rte 3 Box 1031 Hamath Falls, (Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Gooseneck Creek

tributary of Mill Creek

3. The amount of water to be stored is 4.70

4. The use to be made of the impounded water is irrigation (Irrigation, power, domestic supply)

5. The location of the proposed reservoir will be in Sec. 35 (Give sections of town, tract, or other subdivision)

Tp. 6S, R. 7W, W.M., in the county of Polk

(a) State whether situated in channel of running stream and give character of material at outlet No

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions by pumping from point of diversion on Gooseneck Creek and from

6. The dam will be located in S.E. 1/4 of S.W. 1/4 Sec. 35 (Smallest legal subdivision)

Tp. 6 S., R. 7 W., W.M. The maximum height will be 10 feet above stream bed or ground surface on center line of dam. The length on top will be 130 feet; length on bottom 120 feet; width on top 12 feet; slope on front or water side 1/2 to 1; slope on back 1/2 to 1; height of dam above water line when full 2 feet.

\* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Clay Soil

8. The location of wasteway with dimensions are as follows: 18" Gene. Culvert on top of dam (State whether located on and the date)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: 8" pipe with gate valve at bottom of dam  
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be 0.67 acres, with a maximum depth of water of 10' feet; and approximate mean depth of water 7' feet.

11. The estimated cost of the proposed work is \$

12. Construction work will begin on or before July 31, 1963

13. Construction work will be completed on or before July 31, 1964
