

Reservoir Permit No. 9205

# Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

Paul M. ROBINSON  
(Name of Applicant)

Route 1, Box 171, Eagle Point, Oregon  
(Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights:

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Robinson Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Langel Creek

tributary of Rogue River

3. The amount of water to be stored is 450 acre feet

4. The use to be made of the impounded water is Irrigation (irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 21, T. 31 S., R. 1 W., W.M. in the county of Jackson (Give sections or townships to be submerged)

State whether situated in channel of running stream and give character of material at outlet

(a) State whether situated in channel of running stream and give character of material at outlet

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions Robinson Reservoir to be filled through a very short ditch being 0.75 ft. in width on bottom, 1.0 ft. in width on top and 0.15 feet in depth. Head of ditch to be protected by a 8.0 inch inlet pipe.

6. The dam will be located in NW1 NW1 SW1 Sec. 21

Tp. 31 S., R. 1 W., W.M. The maximum height will be 10 feet above stream bed or ground surface on center line of dam. The length on top will be 170 feet; length on

bottom 130 feet; width on top 6 feet; slope on front

of water side 3:1 slope on back 2:1 height of dam above water line

when full 5 feet

When a dam or reservoir is to be constructed for the purpose of storing water for beneficial use, such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

3297

7. The construction of dam, the material of which it is to be built, and method of protection from

waves are as follows: Compacted earth fill backed with stone for wave protection.

8. The location of wasteway with dimensions are as follows: 10 inch pipe through NW

end of dam, set 2.5 feet below crest of dam.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions,

are as follows: None - dam not across natural stream bed. All off channel  
(All dams across natural stream channels must be provided with an outlet conduit of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be 110 acres.

with a maximum depth of water of 7.5 feet; and approximate mean depth of water 5.0 feet.

11. The estimated cost of the proposed work is \$ 1100.00

12. Construction work will begin on or before 1 year from date of priority.

13. Construction work will be completed on or before October 1, 1965

*[Handwritten Signature]*  
(Signature of applicant)

STATE OF OREGON,  
County of Marion.
