

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

The Bureau of Land Management
 The Bureau of Land Management

307 338, Vale
 Box 338, Vale

State of Oregon

do hereby make application for a permit to construct the

following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Owyhee Reseconding Reservoir No. 1

2. The name of the stream from which the reservoir is to be filled and the appropriation made is unnamed tributary

tributary of Owyhee River

3. The amount of water to be stored is 3.35 acre feet.

4. The use to be made of the impounded water is stock water only
 (Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 35E, T. 32S, R. 42E, W.M., in the county of Malheur
 (Give sections or townships to be submerged)

(a) State whether situated in channel of running stream and give character of material at outlet
not a running stream; rock and clay spillway.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions
by spring runoff from snow and rain.

6. The dam will be located in NW 1/4 Sec. 35E
 (Smallest legal subdivision)

T. 32S, R. 42E, W.M. The maximum height will be 9 feet above stream bed or ground

surface on center line of dam. The length on top will be 394 feet; length on

bottom triangular feet; width on top 15 feet; slope on front

or water side 3:1 slope on back 2:1 height of dam above water line
 (Feet horizontal to 1 vertical) (Feet horizontal to 1 vertical)

when full 4 feet

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows:

A roadway will be dug and filled with the best impervious material from a pit in front of the dam. The dam will be constructed of layers not to exceed 6 inches and compacted with a cat and carryall. Dam will be ribbed if necessary.

8. The location of wasteway with dimensions are as follows:

Right end of the dam

16 feet wide 7 feet deep with 1:1 slope on sides

9. The location of outlet from the proposed reservoir, with character of construction and dimensions are as follows:

Down (S.E. corner) (All dams across natural stream channels must be provided with an outlet conduit of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be

1.92

acres

with a maximum depth of water of 5 feet; and approximate mean depth of water 1.76 feet

11. The estimated cost of the proposed work is \$

12. Construction work will begin on or before

13. Construction work will be completed on or before

existing project

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before 19

WITNESS my hand this day of 19

STATE ENGINEER

By

ASSISTANT

Remarks: This reservoir is to be constructed under provisions of the Taylor Grazing Act of June 30, 1934 as amended. The right of storage of water as granted herein is subject to the installation and maintenance of an outlet pipe or to provide other means to evacuate the stored water when determined by the State Engineer to be necessary to satisfy prior downstream rights.

STATE OF OREGON,
County of Marion,

SS.

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: The right herein granted is limited to the construction of Owyhee Reseeding Reservoir No. 1 and storage of water from an unnamed stream for livestock; and is subject to the installation and maintenance of an outlet pipe, or to provide other means to evacuate the stored water when determined by the State Engineer to be necessary to satisfy prior downstream rights.

The right hereunder shall be limited to the storage of 3.37 acre feet

The priority date of this permit is August 6, 1961

Actual construction work shall begin on or before January 7, 1965

shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1965

WITNESS my hand this 7th day of January, 1961
