Reservoir Permit No. 3456

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

The Bureau of Land Management
(Name of Applicant)

Box 138, Vale
(Mailing Address)

I, Box 138, Vale, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights:

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Sarnable Creek Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Sarnable Creek

tributary of Twynoke

3. The amount of water to be stored is 100 acre feet.

4. The use to be made of the impounded water is Stock Water
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 33
(Give sections or townships to be submerged)

Tp. 33S., R. 12E., W.M. in the county of Wheeler

(a) State whether situated in channel of running stream and give character of material at outlet
Not a running stream. On site of dry wash.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions
Through a feed canal.

6. The dam will be located in Sec. 33, Wheeler Co., Ore.

The maximum height will be 10 feet above stream bed or ground

surface on center line of dam. The length on top will be 1 feet; length on

bottom 1 feet; width on top 1 feet; slope on front

of water side 1 slope on back 1 height of dam above water line

when full 1 feet

A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: A beaver will be built and filled with concrete material taken from a pit in front of the reservoir. The dam will be built in layers not to exceed 4 feet and will be placed in a line with the stream bed. The dam will be 100 feet long.

8. The location of wasteway with dimensions are as follows: (State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: (All dams across natural stream channels must be provided with an outlet conduit of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be _____ acres, with a maximum depth of water of _____ feet and approximate mean depth of water _____ feet.

11. The estimated cost of the proposed work is \$ _____

12. Construction work will begin on or before _____

13. Construction work will be completed on or before _____

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____ 19____.

WITNESS my hand this _____ day of _____, 19____

STATE ENGINEER
 ASSISTANT

Remarks: This reservoir is to be constructed under the provisions of the Grazing Act of June 5, 1934, as amended. The right herein granted herein is subject to the installation and maintenance of an outlet pipe or to provide other means to evacuate the stored water when determined by the State Engineer to be necessary to satisfy prior downstream rights.

STATE OF OREGON

County of Marion,

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: The right herein granted is limited to the construction of Schnable Creek Reservoir and storage of water from Schnable Creek for livestock and is subject to the installation and maintenance of an outlet pipe, or to provide other means to evacuate the stored water when determined by the State Engineer to be necessary to satisfy prior downstream rights.

The right hereunder shall be limited to the storage of 116 acre feet.

The priority date of this permit is August 8, 1961

Actual construction work shall begin on or before January 7, 1965 and

shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1966.

WITNESS my hand this 7th day of January, 1961.
