

\* Reservoir Permit No. **3862**

# Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Lyle Woodcock (Name of Applicant)

of 11655 Williams Highway, Grants Pass, (Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Woodcock Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Williams Creek (4.7 a.f.) and 3 unnamed draws (3 a.f.), being 1 a.f. from each. tributary of Applegate River

3. The amount of water to be stored is 7.7 acre feet.

4. The use to be made of the impounded water is irrigation

5. The location of the proposed reservoir will be in Sec. 35 Tp. 37S R. 5W, W.M., in the county of Josephine

(a) State whether situated in channel of running stream and give character of material at outlet

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions not in channel of stream. To be filled through the watts-Topping Ditch which terminates at the reservoir. Three unnamed draws run into watts-Topping Ditch immediately before it enters the reservoir.

6. The dam will be located in S21 S42 Sec. 35 Tp. 37S R. 5W, W.M. The maximum height will be 9.9 feet above stream bed or ground surface on center line of dam. The length on top will be 300 feet; length on bottom 200 feet; width on top 12 feet; slope on front or water side 3:1; slope on back 2:1; height of dam above water line when full 2 feet.

\* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be obtained without charge, together with instructions, by addressing the State Engineer, Salem, Oregon 97310

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Rock and earth fill seeded to bent grass, red fescue, and pasture grasses to prevent erosion. About 2 feet has been excavated in storage area.

8. The location of wasteway with dimensions are as follows: 16-inch metal pipe without gate set to maintain a minimum of 2-foot freeboard on dam. If reservoir fills above waste pipe, water will flow through bypass ditch around south and west end of the reservoir.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: 12-inch metal pipe with gate. (All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be 1.1 acres, with a maximum depth of water of 9 feet; and approximate mean depth of water 7 feet.

11. The estimated cost of the proposed work is \$ 1,500.00

12. Construction work will begin on or before started

13. Construction work will be completed on or before October 1, 1965.
