STATE ENGINEER
SALEM, OREGON

Reservoir Permit No. 3886

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, **G. L. Althausen**
of **Route 3, Box 1290 Boring**
State of **Oregon**, do hereby make application for a permit to construct the

following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is **four unnamed reservoirs**

2. The name of the stream from which the reservoir is to be filled and the appropriation made is

two unnamed streams

tributary of **Deep Creek**

3. The amount of water to be stored is **3 acre feet in each reservoir** acre feet.

4. The use to be made of the impounded water is **fish culture**

5. The location of the proposed reservoir will be in Sec. **14**

Twp. **2S** R. **3E** W.M., in the county of **Clackamas**

(a) State whether situated in channel of running stream and give character of material at outlet

Swampy stream channel; channel not well defined.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give

name and dimensions

6. The dam will be located in **NW Sec 14** Sec. **14**

Twp. **2S** R. **3E** W.M. The maximum height will be **4-5** feet above stream bed or ground

surface on center line of dam. The length on top will be **100** feet; length on

bottom **30** feet; width on top **8** feet; slope on front

or water side **3:1**; slope on back **2:1**; height of dam above water line

when full **2** feet.

* Different forms of application should be used for the appropriation of stored water to beneficial use. Such forms, together with instructions, by addressing the State Engineer, Salem, Oregon 97309.

7. The construction of dam, the material of which it is to be built, and the construction details are as follows: Reservoirs No. 1, No. 2, and No. 3 will be completely by excavation. Water level will not exceed present ground level. Reservoir No. 4--compacted earth fill.

8. The location of wasteway with dimensions are as follows: Concrete wasteway. Full depth of reservoir controlled with flash boards. 2 feet wide x 3 feet deep.

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: combined with wasteway.

(All dams across natural stream channels must be provided with an outlet to maintain the normal flow of the stream at any time.)

10. The area submerged by the proposed reservoir, when full, will be 1 acre each. with a maximum depth of water of 9 feet, and approximate mean depth of water 3 feet.

11. The estimated cost of the proposed work is \$21,000

12. Construction work will begin on or before one year from date of permit

13. Construction work will be completed on or before October 1, 1965

STATE OF OREGON.

County of Marion.

This is to certify that I have examined the foregoing application and the maps and data, and return the same for completion.

In order to retain its priority, this application must be returned to the State Engineer with conditions on or before July 27, 1964.

WITNESS my hand this 18 day of November, 1964.

M. A. ...
STATE ENGINEER
ASSISTANT

Remarks: Fish culture will be approximately 15,000 trout to be harvested by hook and line by public. This will be a commercial enterprise.
