## Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

Bureau of Land Management

(Name of Applicant)		
Day 1104 Madeand		
of Box 1106, Medford (Mailing Address)		
State of Oregon , do hereby make application for a permit to construct the		
following described reservoir and to store the unappropriated waters of the State of Oregon, subject to		
existing rights.		
If the applicant is a corporation, give date and place of incorporation		
1. The name of the proposed reservoir is Shale City Reservoir # 3.		
2. The name of the stream from which the reservoir is to be filled and the appropriation made in		
tributary of Frog Creek which is a tributary of Bear Creek that is a		
tributary of the Rogue River.		
3. The amount of water to be stored is less than ‡ acre feet		
4. The use to be made of the impounded water is for stock watering purposes.  (Irrigation, power, domestic supply, etc.)		
5. The location of the proposed reservoir will be in Sec.		
(Give sections or townships to be submarged)  Tp. 38 S., R. 2 E., W.M., in the county of Jackson.		
(a) State whether situated in channel of running stream and give character of material at outle Located in an intermittant stream.		
Rocky clay soil at the outlet.		
(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, givename and dimensions. It will be filled by the spring runoff and a small spring in the impoundment area.		
C. The dam will be located in SEINET , Sec. 9 (Smallest legal subdivision)		
Tp. 38 S., R. 2 E., W.M. The maximum height will be		
surface on center line of dam. The length on top will be 84 feet; length o		
bottom 80 feet; width on top 10 feet; slope on from		
or water side 2 to 1 ; slope on back 2 to 1 ; height of dam above water lin		
when full		
<ul> <li>A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secure without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.</li> </ul>		

7. The construction of dam, the material of which it is to be built, and method of protection from boaves are as follows: Dam was built with a tracto-shovel which borrowed and scooped up material from the site. The soil was a rocky-clay type. Due to its small size no
protection from wave action was needed.
8. The location of wasteway with dimensions are as follows:  Spillway on the east end is  (State whether over or around the dam)
9. The location of outlet from the proposed reservoir, with character of construction and dimensions,
are as follows: The above spillway is approximately three times the size of the normal  (All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the
stream flow.  normal flow of the stream at any time)
10. The area submerged by the proposed reservoir, when full, will be less than acres.
with a maximum depth of water of6feet; and approximate mean depth of water
3 feet.
11. The estimated cost of the proposed work is \$115.00
Already constructed under the authority of 12. Construction work will begin on or before the Taylor Grazing Act of June 30, 1934 as amended.
13. Construction work will be completed on or before  (Signature of applicant)  ACTING  District Manager
STATE OF OREGON, County of Marion.
This is to certify that I have examined the foregoing application, together with the accompanying
maps and data, and return the same for completion
In order to retain its priority, this application must be returned to the State Engineer, with correc-
tions on or before November 14
WITNESS my hand this 13th day of September 19 60
