AUG 18 1961
STATE ENGINEER Reservoir Permit No. 4321
SALEM, OREGON

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, The Bureau of Land Management
(Name of Applicant)
of Box 338, Vale
(Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Dennison Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is unnamed
tributary of Oregon River

3. The amount of water to be stored is _____ acre feet

4. The use to be made of the impounded water is stock water only
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. _____
(Give sections or townships to be submerged)
Tp. _____ R. _____, W.M., in the county of Malheur

(a) State whether situated in channel of running stream and give character of material at outlet
in channel of stream. rock and silt.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions see plan sheets.

6. The dam will be located in _____ Sec. _____
Smallest legal subdivision
Tp. _____ R. _____, W.M. The maximum height will be 12 feet above stream bed or ground surface on center line of dam. The length on top will be 60 feet; length on bottom 100 feet; width on top 2 feet; slope on front or water side 1:1 slope on back 1:1; height of dam above water line when full 12 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be obtained from the State Engineer, Salem, Oregon, together with instructions by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: A keyway will be dug and filled with the best quality material taken from a pit in front of the reservoir. The dam will be built in layers not to exceed 6 inches and compacted with a cat and dog roll. The dam will be riprapped if necessary.

8. The location of wasteway with dimensions are as follows: Spillway on right end of dam. (State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: None (See Remarks). (All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be 1.5 acres, with a maximum depth of water of 6 feet; and approximate mean depth of water 1.5 feet.

11. The estimated cost of the proposed work is \$

12. Construction work will begin on or before

13. Construction work will be completed on or before

STATE OF OREGON
COUNTY OF ...

I hereby certify that I have examined the foregoing application, together with the accompanying ... and find the same for ...

In the event of any protest, the application must be returned to the State Engineer, with a notice ...

Witness my hand and seal of office this ... day of ... 19...

Remarks: This reservoir is to be constructed under provisions of the 1934
Grazing Act of June 30, 1934 as amended. The right of storage of water as
granted herein is subject to the installation and maintenance of an outlet
pipe or to provide other means to evacuate the stored water when determined
by the state Engineer to be necessary to satisfy prior downstream rights.

STATE OF OREGON,

County of Marion.

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same,
subject to the following limitations and conditions: The right herein granted is limited to the construction
of Demnison Reservoir and storage of water from an unnamed stream for livestock
and is subject to the installation and maintenance of an outlet pipe, or to provide
other means to evacuate the stored water when determined by the State Engineer to
be necessary to satisfy prior downstream rights.

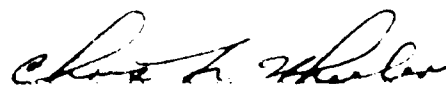

The right hereunder shall be limited to the storage of 5.25 acre feet.

The priority date of this permit is August 8, 1961

Actual construction work shall begin on or before September 10, 1965 and

shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1966.

WITNESS my hand this 10th day of September, 1964.

STATE ENGINEER

Application No. R 35764

Reservoir Permit No. R 1321
