Reservoir Permit No.

STATE OF OREGON
SALEM

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, The Bureau of Land Management
(Name of Applicant)

of Box 338, Vale
(Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Tiffen Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Un-named

tributary of Ovybee

3. The amount of water to be stored is 0.4 acre feet.

4. The use to be made of the impounded water is stock water only
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 32
(Give sections or township to be submerged)

Tp. 34, R. 10E, W.M., in the county of Malheur

(a) State whether situated in channel of running stream and give character of material at outlet
in channel of stream. no material at outlet.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions
no feed canal.

6. The dam will be located in 3, Sec. 32
(Smallest legal subdivision)

Tp. 34, R. 10E, W.M. The maximum height will be 10 feet above stream bed or ground surface on center line of dam. The length on top will be 310 feet; length on bottom 305 feet; width on top 8 feet; slope on front or water side 3:1; slope on back 3:1; height of dam above water line when full 10 feet.
(Feet horizontal to 1 vertical)

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: A keyway will be dug and filled with the best riprap that can be taken from a pit in front of the reservoir. The dam will be built on a foundation that to exceed 6 inches and compacted with a cat and carryall. The dam will be riprapped if necessary.

8. The location of wasteway with dimensions are as follows: 5.00 ft. long and 1.00 ft. high. (State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: None (see Remarks) (All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be 1.00 acres, with a maximum depth of water of 6 feet; and approximate mean depth of water 2 feet.

11. The estimated cost of the proposed work is \$ 100.00.
12. Construction work will begin on or before
13. Construction work will be completed on or before existing property
