

STATE OF OREGON
SALEM

Reservoir Permit No. 4341

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, The Bureau of Land Management
(Name of Applicant)

of Box 330, Vale
(Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Fort Halligan Reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is unnamed tributary of Owyhee

3. The amount of water to be stored is 1.93 acre feet.

4. The use to be made of the impounded water is stock water only
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 23
(Give sections or townships to be submerged)

Tp. 36S, R. 10E, W.M., in the county of Malheur

(a) State whether situated in channel of running stream and give character of material at outlet
in channel of stream. bed and clay silt.

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions
run off.

6. The dam will be located in N1/2, Sec. 23
(Smallest legal subdivision)

Tp. 36S, R. 10E, W.M. The maximum height will be 20 feet above stream bed or ground surface on section 1 dam. The length on top will be 200 feet; length on bottom 200 feet; width on top 20 feet; slope on front or water side 1:1; slope on back 1:1; height of dam above water line when full 20 feet.
(Feet horizontal to 1 vertical)

* Applicant's name and address may be used for the appropriation of stored water to beneficial use. Such forms can be seen at the State Engineer's office, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: A keyway will be dug and filled with the best material taken from a pit in front of the reservoir. Dam will be riprapped if necessary,

8. The location of wasteway with dimensions are as follows: State whether over or around the dam:

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: None (See Remarks, (All dams across natural stream channels must be provided with an outlet conduit of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be _____ acres, with a maximum depth of water of _____ feet; and approximate mean depth of water _____ feet.

- 11. The estimated cost of the proposed work is \$
12. Construction work will begin on or before
13. Construction work will be completed on or before

Donald Elger
Acting District Engineer

STATE OF OREGON,
County of Marion, ss.
