STATE ENGINEER

Reservoir Permit No. 4353

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, L. M. Kramer
(Name of Applicant)

of Rt. 3, Box 472 Oregon City
(Mailing Address)

State of Oregon do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is

from surface runoff from an unnamed drainage area.
tributary of (unnamed stream) a tributary of Beaver Creek

3. The amount of water to be stored is 2.5 acre feet.

4. The use to be made of the impounded water is Irrigation

5. The location of the proposed reservoir will be in Sec. 14

Tp. 3S R. 3E W.M. in the county of Clackamas

(a) State whether situated in channel of running stream and give character of material at outlet

Not in channel of running stream and character of material at outlet is an earth filled embankment. SEE REMARKS:

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

to be filled by surface runoff from an unnamed stream

6. The dam will be located in SW 1/4 SW 1/4 Sec. 14

Tp. 3S R. 3E W.M. The maximum height will be _____ feet above stream bed at the surface of water at full pool. The length on top will be _____

bottom _____ feet; width on top _____ feet; slope on back _____

or water side _____; slope on back _____ height of dam above water when full _____ feet.

* Any beneficial use of water should be used for the appropriation of stored water to be beneficial. For more information, address the State Engineer, Salem, Oregon 97309.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: earthfilled embankment

8. The location of wasteway with dimensions are as follows: in left abutment with dimensions of 2' x 2' x 3'

9. The location of outlet from the proposed reservoir, its character of construction and dimensions, are as follows:
 (All dams across natural stream channels must be constructed so as to not obstruct the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be 0.7 acres, with a maximum depth of water of 9.0 feet and approximate mean depth of water 3.6 feet.

11. The estimated cost of the proposed work is \$ 2,500.00

12. Construction work will begin on or before

13. Construction work will be completed on or before Has been completed
