

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, [Name of Applicant]

of [Mailing Address]

State of [State], do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

- 1. The name of the proposed reservoir is
2. The name of the stream from which the reservoir is to be filled and the appropriation made is

tributary of [Stream Name]

3. The amount of water to be stored is [Amount] acre feet.

4. The use to be made of the impounded water is [Use]

5. The location of the proposed reservoir will be in Sec. [Section]

Tp. [Township], R. [Range], W.M., in the county of [County]

(a) State whether situated in channel of running stream and give character of material at outlet

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in [Location] Sec. [Section]

Tp. [Township], R. [Range], W.M. The maximum height will be [Height] feet above stream bed or ground surface on center line of dam. The length on top will be [Length] feet; length on bottom [Length] feet; width on top [Width] feet; slope on front or water side [Slope]; slope on back [Slope]; height of dam above water line when full [Height] feet.

\* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be obtained without charge together with instructions, by addressing the State Engineer, Salem, Oregon.

Height changed to agree with plans also permission by telephone from Mr. Yoder

7. The construction of dam, the material of which it is to be built, and method of erecting it, and the location of outlet for water are as follows:

8. The location of wasteway with dimensions are as follows:

9. The location of outlet from the proposed reservoir, with character of construction and dimensions are as follows:

(All dams across natural stream channels must be provided with an outlet conduit of such capacity and location to permit normal flow of the stream at any time.)

10. The area submerged by the proposed reservoir, when full, will be 2.5 acres with a maximum depth of water of 9.25 feet; and approximate mean depth of water 3.5 feet.

11. The estimated cost of the proposed work is \$ . . . . .

12. Construction work will begin on or before . . . . .

13. Construction work will be completed on or before . . . . .

(Signature of applicant)

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for . . . . .

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before September 1, 1906.

WITNESS my hand this 4 day of August, 1906.

By Matt [Signature] STATE ENGINEER  
ASSISTANT

Remarks:

[Faded and mostly illegible text, likely a list of remarks or conditions.]

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: The right herein granted is limited to the construction of Yoder Reservoir and storage of water from Morgan Creek, to be appropriated under Application No. 32808, Permit No. 29886, for supplemental irrigation and shall be limited to 7 feet maximum depth of storage.

The right hereunder shall be limited to the storage of 9.0 acre feet

The priority date of this permit is September 22, 1964

Actual construction work shall begin on or before January 8, 1966 and

shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1966

WITNESS my hand this 8th day of January, 1965

STATE ENGINEER
