

* Reservoir Permit No. **R 4703**

CERTIFICATE NO. **35780**

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, John W Lamers (Name of Applicant)

of Rt 2 Box 8 Monmouth (Mailing Address)

State of Oregon 97361, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Lamet Pond # 1

2. The name of the stream from which the reservoir is to be filled and the appropriation made is unnamed tributary of Ash Creek
tributary of Willamette River

3. The amount of water to be stored is 1.0 acre feet.

4. The use to be made of the impounded water is Stock Water
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 2
(Give sections or townships to be submerged)
Tp. 9S, R. 5W, W.M., in the county of Polk

(a) State whether situated in channel of running stream and give character of material at outlet
Structure not in running stream - clay loam at outlet

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in NE 1/4 of the NE 1/4, Sec. 2
(Smallest legal subdivision)
Tp. 9S, R. 5W, W.M. The maximum height will be 10 feet above stream bed or ground surface on center line of dam. The length on top will be 175 feet; length on bottom 50 feet; width on top 10 feet; slope on front or water side 3:1; slope on back 2:1; height of dam above water line when full 2.5 feet.
(Feet horizontal to 1 vertical) (Feet horizontal to 1 vertical)

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: compacted clay construction - no wave protection needed

8. The location of wasteway with dimensions are as follows: S.D. below
(State whether over or around the dam)
around N abutment

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: 4" steel on bottom with 8" riser
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be 0.25 acres, with a maximum depth of water of 8 feet; and approximate mean depth of water 7 feet.

11. The estimated cost of the proposed work is \$.....

12. Construction work will begin on or before April or May 1966

13. Construction work will be completed on or before June 1966
