Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, W.S. Mc Guire (Name of Applicant)
of 1800 Garfiell ST Carrollis (Malling Address)
State of Okcy 10 97330, do hereby make application for a permit to construct the
following described reservoir and to store the unappropriated waters of the State of Oregon, subject to
existing rights.
If the applicant is a corporation, give date and place of incorporation
1. The name of the proposed reservoir is McGoire Reservoirs #2#3
2. The name of the stream from which the reservoir is to be filled and the appropriation made is
#2 unnomed stream-tributary of Luckiounte River
tributary of #3 unnamed Stream - + tibutary of Little Lockia mute River
3. The amount of water to be stored is 420.5 acre $43-50$ acre feet.
4. The use to be made of the impounded water is 5 tock water [Chrigation, power, domestic supply, etc.]
5. The location of the proposed reservoir will be in Sec. #2-Sec 18 - #3-Sec 7
Tp. 9.5., R. 5.4., W.M., in the county of Polk
(a) State whether situated in channel of running stream and give character of material at outlet
In channels of intermittent streims
(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions
6. The dam will be located in
(Smallest legal subdivision) Tp. 95, R. 5w, W.M. The maximum height will be 9.0 feet above stream bed or ground
surface on center line of dam. The length on top will be $\frac{\#Z-90'-\#3-2>5'}{}$ feet; length on
bottom # 2-25' - # 3-100 feet; width on top feet; slope on front
or water side; slope on back; height of dam above water line (Feet horizontal to 1 vertical)
when full
* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon 97310.

8. The location of wasteway with dimensions are as follows: ### 2	7. The construction of dam, the material of which it is to be built, and method of protection from
# 2 Greend Cast Abelian at 8.0 bit 9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: # 2 Marc # 3 4" steel (All dams screen natural stream channels must be provided with an outlet conduit, of such capacity and leastion to plan the ormal flow of the stream at any time) 10. The area submerged by the proposed reservoir, when full, will be# 3 Q acres, with a maximum depth of water of # 3 Eret feet; and approximate mean depth of water # 2 - 30.00 11.
