

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Melvin Raymond (Name of Applicant)

of 13787 South Hawthorne, Hawthorne, (Mailing Address)

State of California #90250, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is Raymond's Reservoir #1

2. The name of the stream from which the reservoir is to be filled and the appropriation made is Conners' Creek

tributary of Pacific Ocean

3. The amount of water to be stored is 562,500 Gal. or 1.72 acre feet.

4. The use to be made of the impounded water is 1. Frost Control 187,500 Gal. (G. S. H.); 2. Irrigation 187,500 Gal. (G. S. H.); 3. Flooding for Picking 187,500 Gal. (C. S. H.) (Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 12 (Give sections or townships to be submerged)

Tp. 30 S., R. 15 W., W.M., in the county of Coos

(a) State whether situated in channel of running stream and give character of material at outlet

Not in a running stream -- a dug sump hole with no outlet

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

The reservoir is to be filled for storage by pumping from Conners' Creek through a 2 1/2" Plastic Pipe

6. The dam will be located in No dam -- a dug sump hole, Sec. 12 (Smallest legal subdivision)

Tp. 30 S., R. 15 W., W.M. The maximum height will be top level with the stream bed or ground surface

The length on top will be 105 feet; length on bottom 95 feet; width on top 53 feet; slope on front or water side 3:1; slope on back xxxxxxxxxxxxxxxx; height of dam above water line when full 0 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon 97310.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows:

8. The location of wasteway with dimensions are as follows: No wasteway or overflow
(State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: No outlet -- just a hole in the ground
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time)

10. The area submerged by the proposed reservoir, when full, will be $105 \times 55 = 43,560 = 0.13$ acres, with a maximum depth of water of 1.6 feet; and approximate mean depth of water 1.5 feet.

11. The estimated cost of the proposed work is \$ 1,500.00

12. Construction work will begin on or before May 1967

13. Construction work will be completed on or before December 1967
