

### Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Herbert A. Stank & Ruth J. Stank  
(Name of Applicant)

of 12510 S.W. Schall's Ferry Rd - Tigard Ore 97223  
(Mailing Address)

State of Oregon, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is

2. The name of the stream from which the reservoir is to be filled and the appropriation made is

unnamed stream  
tributary of FANNO Creek

3. The amount of water to be stored is 23 acre feet

4. The use to be made of the impounded water is irrigation & recreation  
(Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 33  
(Give sections or townships to be submerged)

Tp. 1S, R. 1W, W.M., in the county of WASHINGTON

(a) State whether situated in channel of running stream and give character of material at outlet

in channel of running stream - silty clay

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in N.E. 4 S.E. 4, Sec. 33  
(Smallest legal subdivision)

Tp. 1S, R. 1W, W.M. The maximum height will be 9 feet above stream bed or ground

surface on center line of dam. The length on top will be 350 feet; length on

bottom 100 feet; width on top 16 feet; slope on front

or water side 3-1; slope on back 2-1; height of dam above water line

when full 3-2 feet.

\* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon 97310.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: Compacted earth fill, with 8 ft wide spill way through dam

8. The location of wasteway with dimensions are as follows: 8 ft wide concrete spill way through dam at South abutment Reservoir filled by placing flash boards across spillway. (In ~~add depth, for emergency spillway~~)  
(State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: Same as above flashboards removed in season of high water  
(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time)  
(excise one of flash boards)

10. The area submerged by the proposed reservoir, when full, will be 12.279 acres, with a maximum depth of water of 6.5 feet; and approximate mean depth of water 2.5 feet.

11. The estimated cost of the proposed work is \$ 14,000.00

12. Construction work will begin on or before See remarks

13. Construction work will be completed on or before \_\_\_\_\_
