

* Reservoir Permit No. 5257

Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

I, Paul Ackerman (Name of Applicant)

of R.T. 1 Box 71A Oregon City (Mailing Address)

State of Oregon, 97045, do hereby make application for a permit to construct the following described reservoir and to store the unappropriated waters of the State of Oregon, subject to existing rights.

If the applicant is a corporation, give date and place of incorporation

1. The name of the proposed reservoir is unnamed reservoir

2. The name of the stream from which the reservoir is to be filled and the appropriation made is unnamed stream

tributary of Willamette

3. The amount of water to be stored is 1.4 acre feet.

4. The use to be made of the impounded water is Fish culture (Irrigation, power, domestic supply, etc.)

5. The location of the proposed reservoir will be in Sec. 14 (Give sections or townships to be submerged)

Tp. 3S, R. 1E, W. M., in the county of clackamas

(a) State whether situated in channel of running stream and give character of material at outlet in channel of running stream, material at outlet is earth filled dam

(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give name and dimensions

6. The dam will be located in NW 1/4 SE 1/4, Sec. 14 (Smallest legal subdivision)

Tp. 3S, R. 1E, W. M. The maximum height will be 10 feet above stream bed or ground

surface on center line of dam. The length on top will be 110 feet; length on

bottom 40 feet; width on top 21 feet; slope of front

or water side 3:1; slope on back 2:1; height of dam above water line (Feet horizontal to 1 vertical)

when full 3 feet.

* A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

7. The construction of dam, the material of which it is to be built, and method of protection from waves are as follows: dam to be constructed with earth fill

8. The location of wasteway with dimensions are as follows: location of wasteway in left abutment with dimensions of about 25' x 15' x 3'

(State whether over or around the dam)

9. The location of outlet from the proposed reservoir, with character of construction and dimensions, are as follows: Outlet is located in bottom of earth fill

(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time.)

with dimensions of 15" x 80' cmp asphalt dipped with 9' 21" trickle pipe - with a 8" gate valve.

10. The area submerged by the proposed reservoir, when full, will be 0.36 acres, with a maximum depth of water of 7.0 feet; and approximate mean depth of water 4.0 feet.

11. The estimated cost of the proposed work is \$ 1500.00

12. Construction work will begin on or before Has begun

13. Construction work will be completed on or before Oct. 1, 68
