## Application for a Permit to Construct a Reservoir and to Store for Beneficial Use the Unappropriated Waters of the State of Oregon

1, Robert A. Weaver (Name of Applicant)
of Rt. H Box 221 Hills boro, 97123
State of Oregon, do hereby make application for a permit to construct the
following described reservoir and to store the unappropriated waters of the State of Oregon, subject to
existing rights.
If the applicant is a corporation, give date and place of incorporation
1. The name of the proposed reservoir is Unnamed Stream Weaver Reservoir
2. The name of the stream from which the reservoir is to be filled and the appropriation made is
tributary of Tua la fin Xiver  3. The amount of water to be stored is 72 acre feet.
4. The use to be made of the impounded water is Supply (Irrigation, power, domestic supply, etc.)
5. The location of the proposed reservoir will be in Sec. (Give sections or townships to be submerged)  Tp. 25, R. 3W, W.M., in the county of Amhill
(a) State whether situated in channel of running stream and give character of material at outlet
in channel
(b) If not in channel of running stream, state how it is to be filled. If through a feed canal, give
name and dimensions
6. The dam will be located in $5\omega'_4$ $NE'_4$ , Sec. 23,
Tp. 25, R. 3W, W.M. The maximum height will be 115 feet above stream bed or ground
surface on center line of dam. The length on top will be
bottom 100 feet; width on top 20 feet; slope on front
or water side; slope on back; height of dam above water line (Feet horizontal to 1 vertical)
*A different form of application should be used for the appropriation of stored water to beneficial use. Such forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon 97310.

8. The location of wasteway with dimensions are as follows:	whether over or around life dam)
8. The location of wasteway with dimensions are as follows: Colored Co	whether over or around life dam)  ff deep x 4-7  of construction and dimen  19 / 10  such capacity and location to pass to
9. The location of outlet from the proposed reservoir, with character ions, are as follows:  (All dams scross natural stream channels must be provided with an outlet conduit. of committee of the stream at any time)  10. The area submerged by the proposed reservoir, when full, will be with a maximum depth of water of feet; and approx feet.  11. The estimated cost of the proposed work is \$  12. Construction work will begin on or before  13. Construction work will be completed on or before  14. This is to certify that I have examined the foregoing application, togetheaps and data, and return the same for  In order to retain its priority, this application must be returned to the S	of construction and dimension to pass to
9. The location of outlet from the proposed reservoir, with character ions, are as follows:  (All dams scross natural stream channels must be provided with an outlet conduit. of ormal flow of the stream at any time)  10. The area submerged by the proposed reservoir, when full, will be with a maximum depth of water of	of construction and dimension to pass to
